THREATENED HARM TO DIVORCED WIFE

Martin Corteur of Indianapolis,
Armed With Shotgun, is Ar-
rested by Sheriff Near Mauzy

SANITY INQUEST TO BE HELD

Mrs. Ora Stevens, Sister-in-Law of
Former Wife, Sees Him and
Probably Prevents Tragedy

Martin Corteur of Indianapolis is in jail here, as the result of an episode which might have proved fatal for several people living in the vicinity of Mauzy, when he arrived there yesterday afternoon on a traction car from Indianapolis, and armed with an automatic repeating rifle, ready to do harm.

Corteur was later arrested by Sheriff Jones, and placed in the jail here, and told his reasons for coming to Mauzy. An insanity inquest was expected to be held this afternoon as his mind is evidently affected.

After alighting from the car in Mauzy, he accosted Mrs. Ora Stevens, who was in the station waiting for the car coming to Rushville. He was acquainted with Mrs. Stevens, and asked her about Mr. and Mrs. Vincent Gray, saying that he had come from Indianapolis to straighten out some difficulty. Mrs. Stevens is a sister of Vincent Gray.

According to his story, Vincent Gray married his divorced wife, and at the time the divorce was granted, the custody of their two children was to be shared equally between them. Corteur stated that he has never had the children in his custody and that they have always been with their grandparents in Shelbyville.

Leaving Indianapolis, he had his repeating rifle wrapped in newspaper, and a box of shells in his pocket. When Mrs. Stevens told him she didn't know where he could find the Grays, he said he would find them, and began to unwrap the gun. This action frightened Mrs. Stevens and she notified Mr. and Mrs. Gray, and all three of them came to Rushville to get the sheriff.

Sheriff Jones, Deputy Hugh Jones and Joe Larkin started for Mauzy, and located the man along the railroad, getting over the fence into a corn field. They followed his tracks in the field, and finally overtook him when he sat down to rest. He gave himself up and admitted that he had come to Mauzy to do somebody harm.

When placed in jail, he remarked that where he made his mistake was in not getting Mrs. Stevens out of

ARLINGTON YOUNG PEOPLE WITNESSES

Grand Jury Continues Investigation
and May Not Make a Report
Before October 1

NO SESSION FOR TOMORROW

The grand jury continued its investigations today, and many witnesses were called from Arlington. Most of those called in today were young people, and the real object of the investigation was not intimidated. The session of the grand jury has been long, and it is expected that several indictments will be issued.

Because of a trial in circuit court tomorrow, Prosecutor Stevens will not meet the grand jury, and it is not known just when they will continue their work. Prosecutor Stevens said this afternoon that it would probably be the first of October before a report would be made at which time indictments will be reported.

WOULD GIVE ITALY FIUME

President Wilson Favors This Dis-
position of Port

(By United Press.)

Rome, Sept. 24.—The Paris correspondent of a Roman paper reported today that President Wilson's reply on the Fiume dispute, reached the American peace delegation last night and assigned Fiume to Italy on the condition that the port is not fortified and placed under control of the league of nations.

According to the correspondent, the president established the present armistice right as the boundary fixing the extent of the Fiume territory.

AN INJUNCTION IS GRANTED BY COURT

Judge Sparks Decides David Tem-
pleton Has Right to Sow Wheat
on His Own Farm

CONTESTED BY JEHU CRAIG

Present Tenant, Whose Lease Ex-
pires Mar. 1, 1920, Refuses to
Allow Anyone Put in Crop

The case of Templeton against Craig, which was one asking for an injunction, where Judge Sparks granted a temporary restraining order a few days ago, until the trial could be held, was settled this morning, by rendering judgment for the plaintiff.

The case was a peculiar one, as it dealt with a farm lease between David Templeton and Jehu Craig, which was in effect from March 1 of this year until March 1, next year. Templeton, the owner of the land, wanted Fred Mohler to sow wheat on an 80-acre tract, but according to the allegations, Craig had threatened to do bodily harm to anyone who attempted to sow the wheat.

The case was tried yesterday, and was taken under advisement. This morning Judge Sparks rendered his decree, which entitles the plaintiff to an injunction perpetually enjoining the defendant from sowing any wheat in the lands of the plaintiff, and also holding it legal for Fred Mohler or anyone else whom the plaintiff might wish, to enter upon and sow wheat in the land. The decree also stated that the contract between the two would end on March 1, 1920.

The costs in the case were paid by the defendant, except the witness fees, which were to be paid by the plaintiff.

Mrs. Letha Buckner filed an answer to the divorce suit of Samuel Buckner against Letha Buckner, asking the court to have the plaintiff issue her funds in which to carry on the action. Judge Sparks set Thursday morning at nine o'clock as the time for hearing the defendant in her cause.

The case tomorrow which will occupy the day, will be the state against Sanford Heaton, on an assault and battery charge. The case was lately tried in Squire Stech's court, and Heaton was given a fine, and the case was appealed to the circuit court. Many witnesses from the Heaton neighborhood have been summoned, and the jury has been called for the case.

188 QUARTS ABANDONED

Franklin, Ind., Sept. 24.—A large touring car, wrecked north of Franklin, Tuesday was found to contain 185 pint and 96 quart bottles of bonded whiskey. The owner abandoned the car, and officers called to the scene have been unable thus far to find him. The bottles were wrapped with padded paper.

MOB VIOLENCE IN BIG STEEL STRIKE

Cleveland Strikers Attack Negro
Steel Company Employees and
Two Are Badly Beaten

ONE OF STRIKERS STABBED

Buffalo and Chicago Are Also Scenes
of Violence When Strikers
Clash With Troops

(By United Press.)

Cleveland, Ohio, Sept. 24.—Rioting broke out here today when a crowd of strikers discovered several negro steel workers employed at odd jobs in one of the American steel and wire company's plants, on a street car.

The car was stopped and the negroes dragged to the street. In the fight that followed two negroes were so severely beaten that they were removed to a hospital. One of the strikers was stabbed by the negroes.

Police arrived while the battle was going on and six of the strikers were arrested.

Strikers Beat up 8 Men

Chicago, Ill., Sept. 24.—The first violence of the steel strike in the Chicago district today resulted in extra guards being put about the plant of the Marks Manufacturing Company at Indiana Harbor, Indiana. Eight men, badly beaten when a mob of four hundred strikers surrounded a changing shift, were taken to an emergency hospital. The men attacked said that they had just completed drawing all fires with the intentions of remaining away from the plant thereafter. The strikers after jerking the men, began throwing bricks. A few shots were exchanged.

Troops and Strikers Clash.

Buffalo, N. Y., Sept. 24.—State troops and striking steel workers clashed here today when the latter ignored a command to disperse.

The strikers began congregating on street corners in large numbers. The troop commander ordered them to move on. Strikers responded with a volley of stones. The troops then charged, using their clubs. Many of the strikers sought refuge in saloons but were followed and chased out.

80 Percent in Ohio Affected

Cleveland, Ohio, Sept. 24.—Paralysis gripped approximately 80 per cent of the steel industries in Ohio, union organizers claimed today, the third day of the steel strike.

RATIFYING TREATY WILL PREVENT STRIKES

This is President Wilson's Attitude
Toward Labor Difficulties in Gen-
eral

NOT TO ACT IN STEEL STRIKE

(By United Press.)

Aboard the President's Train, Sept. 24.—Ratification of the peace treaty with its labor provision will enable men to forget war and begin working toward industrial democracy which will prevent labor clashes like the present steel strike, President Wilson believes today.

This can be given as his attitude not toward the steel strike particularly, but toward labor difficulties in general. Although there was no hint from official circles, it may be stated that Wilson, having once already attempted to avert that strike is disposed to wait until both sides are ready to ask his aid and then probably he will propose an armistice until the industrial conference meets in Washington, October 6.

TO ASK REMOVAL OF STATE TROOPS

Action to This End to be Taken at
Conference of 24 Steel Union
Heads Late Today

ARE AFTER PUBLIC SYMPATHY

Charges Made That Police Are
Abridging Right of Free Speech
and Clubbing Strikers

(By United Press.)

Pittsburg, Pa., Sept. 24.—Action endeavoring to bring about the removal of state troops from the strike zone was scheduled to be taken today by a committee of twenty-four union heads and organizers directing the big steel strike.

The committee met in extra session here at eleven a. m.

Charges that the strike police are abridging right of "free speech," clubbing and riding down strikers without cause and inciting trouble, will be presented to the committee to show that the attempts of all organized labor to keep the peace are fruitless. This will be called to the situation as a means toward gaining public sympathy.

The situation in the Pittsburg district is generally unchanged today.

A full report of the methods employed by the steel company and local authorities since the strike started, will be made by John Fitzpatrick, chairman of the strike committee, when he appears at the senate investigation tomorrow.

Fitzpatrick arrived today from Chicago and immediately went into conference with the strike committee.

Few Return to Work at Gary

Gary, Ind., Sept. 24.—Strikers in the Calumet district for the first time since the walk-out seemed to realize the seriousness of the business at hand, today.

Gary streets no longer gave the appearance of festival days as in the previous two days. Although the streets were crowded there was little hilarity as was noticed in the last two days.

They are not spending money in such a reckless manner. They are saving it in the face of the pull ahead.

Bank officials, the majority of whom are with the steel company, declare that \$300 is the average bank account of the steel worker. They can without aid manage to live without working until December 1.

With the exception of six, forty

THREATEN A COAL STRIKE NOVEMBER 1

Delegates of United Mine Workers of
America Will Act Unless Demands
Are Met.

ASK 6-HOUR DAY, 5-DAY WEEK.

(By United Press.)

Cleveland, Ohio, Sept. 24.—The United Mine Workers of America convention delegates were scattering to all parts of the country today, determined to call a nation wide coal strike on November 1, unless a satisfactory wage and working agreement is reached with the coal operations on or before that date.

The convention adjourned late yesterday after indorsing the wage and hour scale and giving their officials the power to call the strike.

An increase of 60 percent in wages of all classes of workers, time and a half for overtime, a six-hour day and a five-day week, will be demanded at the conference of miners and operators in Buffalo tomorrow.

TRIAL SET AT 4 P. M. TODAY

Taylor Case is Again Delayed Be-
cause of Grand Jury Session

The case of Chase Taylor which was to have been tried in police court this morning, before a special judge, was postponed until four o'clock this afternoon, at which time it will in all probability be tried. Prosecutor Albert Stevens was busy with the grand jury this morning, but expected that the afternoon session would be over by four o'clock. If such is the case, the trial will be held, and Mayor Irvin has appointed T. M. Green as special judge, on a motion filed by Taylor's attorney, for a change of judge.

MAKES EFFORT TO ERADICATE SMUT

M. F. Detrick, County Agent, is Giv-
ing Farmers' Seed Wheat Hot
Water Treatment Daily

AT COUNTY HEATING PLANT

Hopes to Get Rid of Loose Smut in
Few Years and Save \$200,000
in Wheat For County

With an outfit fitted up by himself at very little expense, Marion F. Detrick, county agriculture agent, is treating seed wheat at the rate of fifty to sixty bushels a day in an effort to eradicate the loose smut from Rush county wheat and thereby save the farmers of the county approximately \$200,000.

Although only a small percent of the seed which is being sown this fall has been treated to prevent the stinking and loose smut, Mr. Detrick believes that in a few years these enemies of the wheat crop can be put to rout because farmers whose seed is treated this year, will have good wheat for seed next year and many of their neighbors will avail themselves of the opportunity to get seed free from smut.

By this means eventually all of the seed will be freed of smut and the yield in Rush county will be increased one hundred thousand bushels. Estimates based on observations this year and last are that nine percent of the wheat crop was lost because of the loose and stinking smut. Counting the value of the wheat two dollars a bushel, it will be seen the farmers of Rush county will make \$200,000 by using seed which has been treated for smut or is free from smut. One hundred thousand bushels of wheat will make enough bread to supply Rush county, according to Mr. Detrick.

Mr. Detrick is using the hot water treatment to kill the loose smut, which is the most damaging. It is a sure cure for this disease and likewise will kill the stinking smut. The formaldehyde treatment is some times used for the stinking smut but will only eradicate the loose smut.

Mr. Detrick is treating seed wheat in the old county heating plant back of the jail, which has been abandoned since the new heating plant was installed in the basement of the court house last fall. He uses one of the boilers in the old plants to heat the water in a big tank, in which the seed is dipped.

When the seed-treating began, Mr. Detrick had a schedule for seven hundred and fifty bushels to be treated, but he does not expect now that more than seven hundred bushels will be put through the treatment because a few farmers have failed to appear at the hour given to them and can not take advantage of the chance to treat their seed unless they can get the place of some other farmer who fails to appear. About three hundred bushels have been treated, or will be donated to some

WILL AFFECT THE LOCAL TAX RATE

Whether Highway Levy Shall be Ten
Cents in the Cause of a
Dispute

INTERPRETATION OF THE LAW

Highway Commission Contends Ten
Cent Rate on 1919 Valuation
Was Legislature's Idea

Decision as to whether the levy for state highways will be 10 cents on the hundred dollars as contended by the state highway commission, or 4 cents as desired by the state tax board, will affect the final tax rate that will be paid by local property owner. The controversy over the highway levy is waxing warm and a lively struggle is in progress.

The legislature provided for a 10-cent levy when it passed the new highway commission bill. The legislature also directed the state tax board to fix tax levies in accord with the increases in assessments as provided for in the new tax law. Those on the side of the highway commission contend that the legislature intended the commission should have a 10-cent levy based on the new assessments. Those on the other side say the levy was based on the old assessment and that the tax board should reduce the levy proportionately to the increase in assessments, as the board is doing in all other instances of the kind.

If the legislature intended that the 10-cent levy should apply on the basis of the total state assessment at the time it placed the levy at 10 cents then the levy for the highway commission would be fixed by the tax board to yield an amount equal to 10-cent taxes on each \$100 of the \$2,223,000,000, which was the old state total assessment. If the other theory applies then the state board would fix the levy at 10 cents on the new valuation, which is approximately \$5,750,000,000.

On the basis of the old assessment the state tax board would cut the 10-cent levy to a 4-cent levy, or slightly less. In fact this is what the state board had in mind until it met with a storm of protest from the highway commission. The commission contends that such a small levy was never intended by the legislature; that the people of the state want road building to the tune of a 10-cent levy on the new assessment; Continued on Page Two

DISCLOSES PACKERS WAR-TIME PROFITS

Report by Federal Trade Commis-
sion Shows They Were Also
Three Times Greater

CONFIDENTIAL DATA SHOWN

(By United Press.)

Washington, Sept. 24.—Disclosures concerning the packers wartime profits and attempts to have President Wilson change the food administration regulation under which the packers operated, were made today in a report submitted to the senate by the federal trade commission.

The report which was in response to a resolution by Senator Norris, of Nebraska, made public the confidential clashes which showed that the commission told the president the packers profit were unreasonably high and the food administration regulations should be changed to safeguard public interests.

The commission informed President Wilson in a report dated, June 28, 1919, that the packers war profits were at a rate of two and a quarter to three times the earnings in pre-war days.

WILL AFFECT THE LOCAL TAX RATE

Continued from Page One
that on such a basis the state can carry on approximately a \$14,000,000 a year road building program in Indiana, with the maximum of help from the federal government! The commission has many backers in this contention.

Those on the other side say that

the 10-cent levy provided by the law would in reality be nearly a 30-cent levy, thinking in terms of the old state total assessment at the time the 10-cent levy was provided for. They believe the legislature was never intended to give the highway commission so great a revenue at first; that the road building program in Indiana should proceed rather more slowly at first.

MAKES EFFORT TO ERADICATE SMUT

Continued from Page One
five bushels have been treated in one day.

Mr. Detrick charges twenty-five cents a bushel for the treatment to pay the expenses of equipping and operating the plant. If there is any money left in the fund at the close of the season, it will be pro-rated among those who had their seed treated, or will be donated to some worthy cause, according to the wish of the farmers who paid it in. Mr. Detrick is being assisted at present by W. W. Wood, from the federal bureau of plant industry, who is working for the time being under the direction of the Purdue extension department.

Continued from Page One
the way, when he first arrived, as he "might have known she would have called the officers." When he was found by the officers, the gun was not loaded, but he had a supply of shells in his pocket.

The man is about 45 years old, and said that when they lived in Indianapolis Mrs. Stevens lived with them, which accounted for his acquaintance with her. He also made the remark to the sheriff that he had often thought of committing suicide, and had he killed all of the people that he wanted to, he would then kill himself.

He said he was a carpenter by trade. He was well dressed, and a large man, and when not talking about his family trouble, seemed to be in his right mind. It was expected that an inquest would be held this afternoon or in the morning.

In jail last night he told Chase Taylor, another prisoner, that the officers had brought him this far,

PROCLAMATION

Among the millions who have suffered at the hands of the op-
pressor during the war, none have been more sorely tried than the
Jews. They have been driven desperate by starvation, denied cloth-
ing and shelter, and ground between the upper and nether millstone
by persecutor at home and the invader from abroad.

The Jew has contributed in a substantial way to the advancement
and prosperity of all the nations of the earth, and no people have
been more patriotic, more liberty loving. He has fought under the
flag of every nation in the name of liberty and justice for mankind.
Thousands of Jews gave their lives in the cause for which we fought,
and those who remained at home responded with fine patriotism and
devotion to every call.

The American Jewish Relief Committee is devoting all of its
energy and every dollar of its funds toward relieving misery and dis-
tress wherever found, without regard to nationality or religious creed,
in the war-ravaged countries of the old world.

Today over 6,000,000 of hapless souls, old men and women and
children, are actually starving to death. AND NOTHING CAN
SAVE THEM EXCEPT THE GENEROSITY OF THE AMERICAN
PEOPLE. It seems to me most fitting, therefore, that as Americans
and citizens of the great state of Indiana, we should hear the appeal
for these down-trodden and stricken people, the first general one they
have ever made to the American public, and contribute of our surplus
to a fund which will be devoted to their succor.

Therefore, knowing the warm appreciation of justice which abides
in the hearts of our people, and the splendid generosity and spirit of
brotherly love with which they respond to every call from their less
fortunate fellows, I, James P. Goodrich, Governor of the State of In-
diana, designate the period FROM MONDAY, SEPTEMBER 29TH, TO
SATURDAY, OCTOBER 4TH, AS JEWISH RELIEF WEEK IN THE
STATE OF INDIANA. I call upon all the people of our cities, towns
and rural communities to organize their forces and get behind this
worthy movement with true Hoosier spirit. No state has been more
blessed with abundant crops than ours; our merchants and manu-
facturers and people of all classes have prospered beyond measure,
and I am sure that our people will be willing to give of their
bountiful store for the relief of suffering humanity. I appeal to the
mayors and municipal officials throughout the State to lend their sup-
port in making this undertaking a success.

IN TESTIMONY WHEREOF I have hereunto set my hand and
caused the Great Seal of the State of Indiana to be affixed, this 13th
day of September, 1919.

By the Governor.
WILLIAM A. ROACH,
Secretary of State.

JAMES P. GOODRICH,
Governor.

Proposal Made After Howls Were Raised That Giants Were Trying to Buy League Pennant

JOHNSON FAVORS THE PLAN

Big Objections Came This Season When McGraw Landed Catcher Snyder in Trade for Driftwood

(By United Press.)

New York, Sept. 24.—Howls raised by several clubs and fans all over the country that the Giants were trying to buy the National League pennant this year may result in some legislation this winter to curtail the purchasing privilege of the major league clubs.

The proposal has come from several of the objecting clubs that all purchases or trades of players within the league be barred after July 1. They point out that this would make it impossible for a club to open its purse strings and take in reinforcements during the heat of a season's main drive.

Ben Johnson, big boss of the American League, is said to favor the plan, but so far "Prexy" Heydler, of the older circuit, has maintained a statue like silence. Outside of New York, Chicago and Boston, where the expenditure of a paltry \$16,000 or \$15,000 doesn't put a crimp in the club coffers, the magnates are expected to line up in support of the measure.

The big howl came this season when McGraw landed Catcher Snyder in a trade for drift wood on the team. Later fans claimed he got all the best of it when he worked the Cubs for Phil Douglass and then Cincinnati yelled to the skies that the league was all for the Giants when McGraw bought Pitcher Neph for an outlay that was said to represent \$40,000.

Meanwhile Pat Moran was almost on his knees for an outfielder that would release Pitcher Bressler from work in the gardens and enable him to take a regular turn in the box. When he had to go to the minors to get Outfielders See and Duncan, the Cincinnati folks charged loudly that the Giants got all the sweets in the league and that the other clubs wouldn't help the Reds even if Herrmann was able to spend the fortune that is always available for anything that McGraw wants.

Favoritism in the Army.

Seathing denunciation of those in authority in the army is voiced by Representative Charles J. Thompson, of Ohio, in urging charges that they have destroyed the national guard, reduced officers to ranks by so-called inefficiency boards, sent youths to prison almost for life for trivial offenses, unnecessarily executed soldiers before mitigating papers reached the Judge Advocate General, permitted the brutal beating of homesick and shell-shocked soldiers, locked up sane white soldiers in wards and metal cages with insane whites and negroes, caused arbitrary delay in discharging enlisted and drafted men, failed to give proper promotions and otherwise comported themselves with "favoritism, inefficiency, brutality and pusillanimity."

"If the crimes committed against the soldiers of the United States, both in America and abroad, by the autocratic military authorities," he says, in a statement today, "could be chronicled, a library of considerable dimensions would be required to hold them. Now that men are being discharged the truth is coming out. Some methods should be devised by Congress to rectify, if possible, some of the wrongs inflicted upon soldiers, and empty every prison in United States of every prisoner not a criminal under civil laws. I could be arrested for what I think of the present military cabal, which, in my opinion, could give Satan pointers on how to run Hades."

The ire of Thompson has been roused by witnesses introduced by him as the result of his resolution to investigate the Walter Reed and Saint Elizabeth's hospitals and interrogated during the past week by Representative Roscoe C. McCulloch, of Canton, a member of the house committee investigating the war department.

"At Savenay, in Hospital 214," said one witness, "some of the mental cases were really insane, but most of them were just worrying simply about home affairs. Yet they were locked up behind heavy screen-wired windows. If they did not do just what they were told them, exactly the way it was told them, the boys were jumped on and beaten up. There was one man named Mooney. He had gone crazy over

religion. He never bothered anyone and just sat on his bed all day, saying his 'Hail Mary' and counting his beads. The side of his face was skinned where a couple of men had jumped on him and beaten him. He is just one I remember."

Switzerland is Suspicious

"Switzerland is a wonderful nation," declared Maor J. A. Louder, of Pittsburg, in an interview with a Washington Post correspondent recently. "It is a melting pot in a way for various nations. This country is perhaps the greatest experimental field in the world in many lines—politically, economically and socially." But Switzerland is unwilling to accept the invitation to join the league of nations unless she can do so on her own terms and with her own reservations. To enter unreservedly is an experiment she is unwilling to try. The United States is also a melting pot, far greater than Switzerland. Thirty-three percent of our population is of foreign nativity or of foreign parentage. We have been doing some experimenting ourselves in the political field of late years, without any particular benefits derived therefrom, and our economic experiments have about ruined the country. Switzerland's attitude toward the league is very much like that of the majority of the American people. And we have nearly all agreed it is high time to abstain for a season from experiments, and get back to a sound basis of government. That means the ousting of the hypocrites, the quacks, the demagogues, and the despots from control.

All of a sudden Baker scents Hun danger and gives that as an excuse for keeping American soldiers in Russia. And six months after we had entered the war he gave us an excuse for not hustling soldiers to Europe, the fact that "the war is 3,000 miles away."

The Washington Post sums the whole matter up in a few words, in reply to the pro-covenanters who argue against reservations and amendments as follows: "Who'd have thought there were so many reasons why it would be fatal to make treaty changes that don't mean anything, anyhow?"

If the league of nations kicks up this kind of a row in the beginning what will it do when it is firmly seated in the saddle?

Untidiness is an injury to any business house. It has caused the loss of more customers than any other one thing in commercial life.

"The world is shot to pieces," shouts an exchange. Bird shot, or booze?

"America First" is an excellent slogan. But "America all of the Time" is a better one.

The milk of human kindness is a good thing—until it is curdled.

Love laughs at locksmiths, but keeps its weather eye on the dollar.

—Edmund Gartin was in Indianapolis today on business.

Sap and Salt

PHYSICAL TESTS ARE BEING HELD THIS WEEK

Candidates For National Guard Are Being Examined—Will Number About 3,000

ALL BRANCHES REPRESENTED

(By United Press.)

Indianapolis, Sept. 24.—Physical examinations of candidates for the new national guard are to be conducted this week by the federal national guard medical officers.

The guard will number 3,000 men when completed and will include infantry, artillery and cavalry.

Companies will be organized in every city large enough to support one, providing there is a demand in those cities for them.

The following cities have organized companies: Attica, infantry; Evansville, artillery; Madison, either infantry or artillery; Terre Haute, cavalry; Shelbyville, infantry; Fort Wayne, one company of infantry and one battery of artillery; Elkhart and Goshen, infantry.

Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will Be Relished by Your Friends When You Repeat Them.

The only surviving member of the family of a Pennsylvania lumber king holds forth at his home town several months each winter. He has an office with his name on the door and sometimes comes down town in the mornings. Finding no one to talk to he usually drops in at his office for a smoke. His sole occupation has been cutting coupons every month and getting the local club out of debt. That is he did the latter before June 30, which he styles as the Last Day of the World. On all occasions as he leaves the office he always hangs a sign on the door, which reads:

WILL BE BACK AT THREE

Upon returning home for a few days this month he found another line printed below the one just given. It read:

WHAT FOR?

(Contributed by Mary Johnson, Lake Placid, N. Y.)

CASH PRIZE OFFER: A prize of \$1.00 will be awarded each contributor of a joke to OUR DAILY LAUGH which we accept. Only new jokes, those never before published, are considered. Contributions will not be returned unless stamped envelope, bearing your address, is enclosed. Mail stories to contest editor, Daily Republican.

WORK IN E. A. DEGREE

Phoenix Lodge, No. 62, F. & A. Masons, will have work in the E. A. degree Friday evening at 7:30 o'clock. A large attendance is desired.

Samples of embroidery work done by women in Palestine are finding a market through the American Red Cross, which is trying to keep the refugees on a self-supporting basis until they can return to their homes in Odessa.

CAR SHORTAGE HURTS COAL PRODUCTION

Due to Lack of Transportation Mines in Indiana in Week of Sept. 13, Worked Half Time

PRODUCTION WAS 532,128 TONS

Terre Haute, Ind., Sept. 23.—The car shortage made a tremendous inroad on the production of coal in Indiana during the week ended September 13 and was so serious on some roads that the mines were permitted to work only a little over half time.

Production for the week was 532,128 tons and the car shortage over the entire field amounted to 33.10 percent causing a loss of production of 266,313 tons, according to reports from 182 mines, tabulated for the United States Geological Survey.

The potential working time for the mines was 8,554 hours and they worked 5,264 hours. The Big Four Railroad had a car shortage of 41.93 percent, the C. & E. I. 29.53 percent, the C. T. H. & S. E. 35.40 percent and E. & E. I. 39.58 percent, the Pennsylvania 37.94 percent, the Monon 22.45 percent and the Southern 47.22 percent.

Very few operators have been able to ship enough coal to meet their contract requirements, and there has been very little free coal on the market. The price remains at from \$2.00 to \$3.00 a ton although there are isolated instances where lump coal has sold at \$3.25. Buyers who neglected to acquire the fuel supply a few weeks ago when it was available, are now besieging the offices of the operators in attempts to get early delivery, and most of them are finding exceeding difficulty in placing their orders.

TWO ASSOCIATIONS ARE MEETING TODAY

Indiana State Bankers and Indiana County Commissioners Will be Served Luncheon Jointly

ALSO RIDE OVER HIGHWAYS.

Indianapolis, Ind., Sept. 24.—Road building and administration of highway laws will be considered by the County Commissioners Association of Indiana which opened its annual convention here today.

The Indiana Bankers' association is meeting here at the same time and it has been arranged to serve luncheon to the two organizations jointly.

Tomorrow, a rural motor express parade probably will be held to show the bankers as well as the commissioners the importance of improved highways.

Joseph G. Hayes, Marion county commissioner, who has headed the association of commissioners for several years, will preside at the session of that body.

Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood.

Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh with S. S. S. during warm weather.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the root of the trouble. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Address Swift Specific Co., Dept. 53, Atlanta, Ga.

Mrs. Laura Wolverton will be hostess for the Industrial club tomorrow afternoon at her home in North Main street. All members are urged to be present.

The Lower reunion which was to have been held at the home of Mr. and Mrs. Thomas Lower Sunday, Sept. 28, has been postponed indefinitely, on account of the scarlet fever.

Mr. and Mrs. Elwood Kirkwood celebrated their thirty-fifth wedding anniversary today at their home near Orange. About thirty-five guests enjoyed the pitch-in dinner served at noon and the afternoon was spent socially.

Mrs. Robert Conover entertained the members of the First United Presbyterian Ladies Aid society yesterday afternoon at her home in North Maple street. The regular program was carried out and was followed by a business session.

Mrs. Ezra Hinkle and Mrs. Sanford Poston spent yesterday evening in Connersville and attended a banquet given in honor of the grand matron of the Eastern Star, Mrs. Cora B. Holland of Indianapolis. About two hundred were present at the banquet.

A number of friends and relatives of Mr. and Mrs. James Smith delightfully surprised them yesterday at their home near Orange, the occasion being in honor of their forty-fifth wedding anniversary. A pitch-in dinner was served at noon followed by a social afternoon.

Fifty-six members of the Meth-

odist Ladies Aid society enjoyed an all day meeting yesterday at the home of Mrs. Ab Denning west of the city. At noon a delicious pitch-in dinner was served and in the afternoon the regular business session was held, which was followed by a short program.

Mrs. Ernest Staida was hostess for the members of the Loyal Daughters class last evening at her home north of the city. Twenty-seven members were present to enjoy a social time, during which a contest was held. At the close of the evening delicious refreshments were served by Mrs. Staida.

The Pastor's Ladies Aid Society of the Main Street Christian church met yesterday afternoon in the church parlors. A short program was given, which was followed by a business meeting, at which time plans were made for a penny supper to be held Wednesday evening, September 22. Twenty-five members were present for the meeting.

The first meeting of the year of the Sorosis club was held yesterday afternoon at the home of Mrs. W. S. Saxon in Fairview. Only a short program was carried out, at which time the president addressed the meeting and one reading was given. The program was followed by a business meeting. The guests present were Mrs. Alta Wyckoff, Mrs. Janken and daughter Mary and Mrs. Millie Johnson. The hostess served a lunch at the close of the meeting.

Forty neighbors and friends delightfully surprised John W. Pratt, Monday evening, at the home of his parents. A very pleasant evening was spent with music and games. Refreshments were served at a late hour. Those present were: Mr. and

Mr. R. J. Brooks, Mr. and Mrs. Vester Casey and children, Mr. and Mrs. Kendell, Lora and Noland Bogue, Alf Fry and family, Earl Grubbs and family, Mr. and Mrs. Sol McBride, Mr. and Mrs. Ole Thompson, Mr. and Mrs. Howard Steele, Mr. and Mrs. John Weiss and daughter, Mr. and Mrs. Baty Newhouse, Mr. and Mrs. Ode Winkler and children, Mr. and Mrs. Carroll Clifton and daughter, Clarence Roland and Harry Benham.

A very enjoyable evening was spent Friday evening when Mr. and Mrs. M. L. Stewart entertained several of their friends with a pitch-in supper at their beautiful country home near New Salem, honoring Mr. and Mrs. Jesse Stewart of Wamego, Kansas, who are visiting friends in this county. The house was beautifully decorated with cut flowers and golden rod and a large bouquet of asters formed the center piece for the table. After the supper was served the remainder of the evening was spent with music and a reading by Miss Letha Williams. The guests were: Mr. and Mrs. Jesse Stewart, of Wamego, Kansas, Mrs. James Halstead and daughter Miss Jessie and son Paul Edwin, of Connersville, Mr. and Mrs. C. A. Reed, Mr. and Mrs. W. Stewart of Orange, Mr. and Mrs. James Stewart and son Dewey and Miss Anna Holton of Rushville; Mr. and Mrs. Bert Wilson and family and Miss Julia Neal of near Milroy; Mr. and Mrs. Ed Morris, Mr. and Mrs. J. O. Williams and daughter Ada, Mrs. Jane Matney and son Harrold, Mr. and Mrs. James Williams, Mr. and Mrs. Ted King and family, Mr. and Mrs. Earl Williams, Mr. and Mrs. Clifton Stamm and family, Mr. and Mrs. Chester Williams and family, Mrs. Amanda McKee, Miss Anna Williams, Stanley Stewart and Ruby Stewart all of New Salem, and Jus-

Many People Report Big Gains In Weight

Thousands of Thin, Frail People Restored to Health by Tanlac

MANY REMARKABLE EXPERIENCES TOLD People in all Ranks of Life Tell What Celebrated Medicine Has Done For Them

ONE of the most noteworthy features in connection with Tanlac and the one that stands out more prominently than any other, perhaps, is the very large number of well known men and women from all parts of the South who have recently reported astonishing and rapid increases in weight as a result of its use.

When so many well-known people of unquestioned integrity make statement after statement, each corroborating the other, the truth of such statements can no longer be doubted.

Thousands have testified that this famous medicine has completely restored them to health and strength, after every other medicine and the most skilled medical treatment have failed.

One of the most remarkable cases on record is that of Mrs. Viola Ives, of 315 Cross street, Little Rock, Ark., whose statement appears below.

"In May of 1913," said Mrs. Ives, "I suffered a complete breakdown of my nerves and my entire system gave way. About six weeks afterwards I was carried to the hospital. I became perfectly helpless—couldn't move any part of my body and just lay there in bed for five months, not knowing anything or anybody. I was brought home in October, 1913, and tried all kinds of medicine and everything I was told about.

"I read about so many people getting relief by taking Tanlac and my husband got me a bottle. After taking three bottles I began to feel better. I have taken several bottles of Tanlac now and I can walk anywhere and sleep like a child. When I took my first dose of Tanlac I weighed only one hundred and twenty-two pounds. I now weigh one hundred and sixty-two—an actual gain of forty pounds since I started on Tanlac."

Texas Man Testifies

Another remarkable case was that of John M. Crabtree, a general merchant of Five Mile Station A, Dallas, Texas:

"I have actually gained thirty-four pounds on three bottles of Tanlac and I now know what it is to enjoy good health after suffering for twenty years," said Mr. Crabtree.

"I suffered with catarrh of the stomach and indigestion for twenty years and for eighteen months, before I started taking Tanlac, I had to live almost entirely on cereals. I spent nearly all of one whole year in bed and was unable to do anything at all and I fell off in weight to 118 pounds."

"After using my third bottle of Tanlac I found I had increased in weight from 118 pounds to 152 pounds, making an actual gain of thirty-four pounds—all my troubles were gone, and I was feeling like another man."

Captain Jeff D. Riggs, popular Y. & M. V. engineer, running between Vicksburg and New Orleans and residing at 2020 Pearl Street, Vicksburg, in speaking of his experience with Tanlac said: "Yes, sir, it's an actual fact I have gained twenty-five pounds on Tanlac."

"When I began taking the medicine," continued Captain Riggs, "I was simply a nervous and physical wreck and had dropped down in weight from one hundred and forty to one hundred and ten pounds."

"I have just finished my second bottle of Tanlac, have gained twenty-five pounds and I feel like a new man."

Mrs. Chas. Peden Gains 27 Pounds

Was Twice Examined And Told Operation Would be Her Only Hope.

"I HAVE just finished my third bottle of Tanlac and have gained twenty-seven pounds," was the truly remarkable statement made by Mrs. Charles Peden, residing at 55 Mill Street, Huntsville, Ala.

"When I commenced taking the medicine," she continued, "I only weighed ninety-eight (98) pounds; now I weigh 125 pounds and never felt better in my life. For years I have suffered with a bad form of stomach trouble, constipation and pains in my side and back. At times the pains took the form of and each time I was told that I had to have an operation, and I was twice examined and told that an operation would be my only hope."

"I had made all preparations for the operation and called in my sister to tell her goodbye, as I did not know whether I would live to see her again or not. My sister begged and pleaded with me not to allow them to cut on me and told me to wait and try a good tonic for a while. The next day, as I returned from the consultation room, I thought of what she said, and as I had heard so much about Tanlac, I decided to try it and got a bottle."

"I never returned for the operation, but just kept taking the Tanlac. Right from the start I began to feel better. The medicine seemed to take hold right at once."

"I was so happy over the wonderful improvement in my condition that I sent for my neighbors to tell them how much better I felt. I sent and got another bottle of Tanlac, and have just finished taking my third bottle and feel as if I have been made all over again into a new woman."

Old-Time Engineer Talks

Engineer Chas. J. Weeks, who runs the Seaboard Air Line fast train "Fox" between Jacksonville and Tampa, bears the distinction of being the second oldest engineer in point of service with this road, having been with the company for thirty-five years.

"I have gained twenty pounds on seven bottles of Tanlac and feel as well and happy as I did when a boy," said Mr. Weeks.

"For twenty years I suffered with nervous indigestion of the worst sort," he continued, "and at times during the past fifteen years I didn't think I would last much longer. To tell you the truth, I finally reached the point where I didn't much care whether I lived or died."

Thousands of other people all over the country have reported the same astonishing gains in weight after taking Tanlac. Among these are: Mrs. E. O. Wilson, of 197 Bass St., Atlanta, Ga., who gained 25 pounds; Edward Reno, 1721 Broadway, Kansas City, Mo., who gained 25 pounds; Mrs. W. C. Cochran of Juliaetta, Idaho who gained 22 pounds; Mrs. Doll Davis of 108 Samuel Ave., Peoria, Ill., who gained 30 pounds; Chas. E. Shaffer, 508 W. Charleston St., Portland, Ore., who gained 24 pounds; Mrs. Amelia Mann, R. F. D. No. 2, Ogden, Utah, who gained 25 pounds; W. S. Hukill, 7308 Park Ave., Tacoma, Wash., who gained 20 pounds; Mrs. B. W. Smith 3113 Burdett St. Omaha, Neb. who gained 35 pounds; Fred W. Saunders, 710 Market St., San Francisco, Cal., who gained 24 pounds and many others too numerous to mention.

Tanlac is sold in Rushville by F. B. Johnson & Co., in Milroy by Dallas Copper; in Manilla by Geo. J. Inlow and Arlington by Mrs. L. T. Davis.—Adv.

FARMERS MEET IN GREAT CONGRESS

Representatives Will Debate Subjects of International, National and Local Interest

ANNUAL CONTEST OF STATES

Provinces and States to Compete For \$500 Cup to Determine Best Half Bushel Wheat in World

(By United Press.)

Kansas City, Mo., Sept. 24.—Undeterred by the experience last year when the "flu" epidemic caused the cancellation of the session's thirty minutes before the doors opened, the International Farm Congress and Soil-Products Exposition will hold the boards here this week. The farm congress, a world forum for agriculturalists, will be in session September 25, 26 and 27, while the exposition, which is held under the direction of the congress, will open September 24 for a period of eleven days.

Representatives of foreign nations and provinces, states, farmer associations, agricultural colleges and kindred institutions constitute the delegates to the fourteenth annual session of the farm congress. George Albert Smith of Salt Lake City, Utah, is president of the organization.

Before this body of representative agriculturalists of the world will be debated subjects of international, national, sectional and local interest. Representatives of the packing industry, a well-known official of the national grain board, advocates of Secretary Franklin Lane's land reclamation projects and others who have met with opposition from the men who till the soil will be present to take part in discussions.

Leading all other contests in interest at the exposition are the annual "Contest of the States" in which nations, provinces and states compete for a \$500 cup, and the competition to determine the best half-bushel of wheat in the world.

Although the sessions of the Congress and Exposition have been held all over the nation and once in Canada, two midwestern states, Nebraska and Kansas, have taken the largest number of sweepstakes in the "Contest of the States." The Sunflower State was a winner of first place in 1915 at Denver and repeated in 1916 at El Paso. Nebraska broke the Kansas run by taking first place in 1917 at Peoria, Ill., but the two states tied for first honors last year at Kansas City, where all prizes were awarded, although the exposition gates never opened. Each year the competition between the two states has been close. Bruce Wilson of the Kansas State Agricultural college assembled the exhibit for his state and Arnold Martin, of Dabois, Nebraska, is in charge of the Nebraska display.

Canada has won sweepstakes in the wheat competition five consecutive years. Seager Wheeler a Rosethorn, Saskatchewan, farmer, has taken three first places for the British possession and will exhibit again this year. Samuel Lacombe of Birtle, Manitoba, was champion wheat raiser of the world in 1917. Wheat-growers of the United States and notably those of Kansas, are determined that the trophies and prizes will remain in this country this year, and the competition for first honors in the wheat sweepstakes promises to be close. The best half-bushel of wheat may win \$1,020 for its owner, and the least, it can win it \$385.

Nearly \$15,000 in cash and trophy prizes will be awarded to exhibitors. These premiums, the largest offered by any fair or exposition, are open to the world, except in a few special classes, which are open to farmers of sections or provinces. Some of the silver trophy cups are huge affairs measuring nearly four feet in height and costing \$500 each. Others range in size, down to the ones offered in the ordinary sweepstakes contests.

PREDICTS COMMITTEE WILL BE FOR WATSON

Robert G. Tucker, Enquirer Political Correspondent, Says Reorganization is Likely

WATSON AND GOODRICH MEET

Robert G. Tucker, Indiana political correspondent for the Cincinnati Enquirer, predicts in an article in the Sunday Enquirer that the Indiana state republican central committee will be reorganized and it will be friendly to Senator James E. Watson, who is an avowed candidate for renomination as United States senator next year, and who is frequently mentioned as a possible candidate.

Governor James P. Goodrich has presidential aspirations, but it was stated in a Washington dispatch to the Indianapolis Star Sunday, that Governor Goodrich and Senator Watson agreed not to quarrel about their ambitions, at a conference in Washington Saturday.

Some Indiana republicans had feared that a contest for the Indiana delegation to the national convention next year might lead to a split, but the statement was made in the Washington dispatch that they will permit no misunderstandings to develop and that eventually there will be a complete understanding between them.

"There will be no misunderstanding between Governor Goodrich and myself about the presidency," was Senator Watson's only comment about their conference. The governor would not add to it.

CONNERSVILLE PEOPLE HURT

Anderson, Ind., Sept. 24.—When an automobile in which they were riding to this city was struck and demolished by an eastbound Union Traction car, one mile west of Fortville, Mrs. Ruth Masters of Connersville, was injured seriously; her husband, Charles Master, suffered an injury to one leg, and their 3-year-old daughter was shaken up.

J. R. DEARINGER
DUSTY MILLER, Auctioneer. L. R. WEBB, Clerk.
Lunch will be served by the Pleasant Ridge Epworth League.

AMUSEMENTS

Good Program at Mystic
"The Midnight Patrol," a feature picture in which a policeman is the hero and successfully fights the owner of a Chinese opium den and a crooked politician, which was shown to a packed house at the Mystic theater last night, will be repeated again tonight and equally as large crowds are expected. There are thrilling moments in the picture, which are in striking contrast with the romance which is carried along with the main plot. An Arkuckle comedy "Fatty the Mermaid," will also be on the program this evening.

Norma Acts Like Cleopatra
From a would-be modern Cleopatra trifling with Fate and forever in pursuit of pleasure to an unselfish and devoted woman wrapped up in her two small children—that is the character transition portrayed by the versatile Norma Talmadge in her screen impersonation of the heroine of "The Moth" her newest Selznick-Picture which is seen to-night at the Princess theatre. Abounding in emotional possibilities and dramatic incidents, the plot is calculated to give the charming young star an opportunity to add one more artistic interpretation to her already amazing list of successes.

The story of the scenario is one that will focus the attention and delight the imagination. Lucy Gilliam, the Moth, is a capricious heiress still in her teens and without parental guidance when she becomes fascinated by the subject of the Egyptian Cleopatra who "flirted her way to immortality." A passage in one of her textbooks about the famous queen so excited Lucy's imagination that she immediately started in search of her Anthony.

The many incidents which come up in her struggle to "flirt her way" into popularity, causes much amusement, and how she succeeds in landing her Anthony is not known until close to the end of the photoplay. Tomorrow and Friday, Griffith's picture, "True Heart Susie" will be shown, featuring Lillian Gish and several other stars.

"I Love You" Next Week
"I Love You" which comes to the Shubert Murat theatre, Indianapolis, all next week commencing Monday evening, September 29, with matinees Wednesday and Saturday, is a welcome relief from the bedroom-bathroom type of farce which has flooded the stage for the past year. G. M. Anderson's sparkling satirical farce comedy, from the pen of William De Baron, offers a rebuff to those who hold to the opinion that to be funny a modern farce must continually glide over the thin ice which lies between respectability and vulgarity.

To use the words of Charles Col-lins, the able reviewer on the Chicago Post, "I Love You" does not place its faith in doors, or beds, or the dire aftermath of a night out with the boys, or the ridiculous fears of a fat man afraid of his wife. It does not endeavor to communicate mirth through shrieks and tumult.

The plot of the play concerns the wager of a man who holds that love is purely a matter of circumstances; that any two beings of the opposite sex can be brought to admire each other in an unbelievably short time provided that they are placed in an atmosphere agreeable to the processes of the bow-and-arrow baby. To prove his case the man in question permits the gentleman with whom he wagers to pick out any two healthy candidates, regardless of their social or intellectual differences. Then he sets to work to conduct his experiment with some paltry thousands hanging on the success or failure of the test. To collect his bet he enlists the aid of a wandering violin-player, a union electrician who agrees to wear a dress-suit and act as the male portion of the conspiracy for twenty-five hundred dollars a week, a morocco-bound volume of Keat's love lyrics, the cooling breezes of the night and a not unwilling moon. The measure of success which the intrepid experimenter meets with cannot be set down here. It is enough to say that high note on the laughing thermometer is reached as soon as the curtain is raised which niche is maintained until the satisfying and chuckling finish.

**NORMAL ACREAGE
URGED FOR STATE**

Committee on Food Production and Conservation Send Message to Indiana Farmers.

THIS YEAR'S CROP POOR

Asks That Normal Wheat and Rye Crops be Sowed—Seed Wheat Should be Tested for Smut

Lafayette, Ind. Sept. 24.—The sowing of a normal acreage of wheat and rye throughout the state this fall is urged by the Indiana committee on food production and conservation. Any reduction in acreage of these two important crops will serve only to aggravate the world food shortage while a normal crop will do much to help restore normal conditions, the food men say.

In connection with the efforts of the committee to obtain a normal acreage of these two crops, soil specialists at Purdue university declare that the treating of seed wheat to prevent smut, thorough preparation of the seed bed, cleaning of seed, are three important factors which will help determine the yield of next year's crop.

It is better to cut off the corn, when wheat follows this crop, thoroughly disking and harrowing the field, than to sow between the rows of corn, as it will prevent waste of the ground and also insure a more even stand and consequent better yield. When wheat follows, such crops as potatoes, soy beans or cow-peas, an ideal seed bed can be prepared by disking and harrowing, and on clean mellow soils, harrowing alone will be sufficient, the men say.

Because of the extremely hot weather early in the summer, which shriveled up much of the grain, the quality of this year's crop is below standard. These shriveled, bad grains may be taken from the seed by cleaning the seed once or twice. Rye, cheat, cockle and weed seeds also will be gotten rid of in this way.

Use of formaldehyde, one pint to forty gallons of water, the wet method, may be used successfully to treat seed wheat to prevent stinking smut. This, however, will not prevent "black heads" or loose smut in wheat, which may be controlled only by the hot-water method.

Famous Contralto Here Next Week

Miss Amy Ellerman, the famous contralto who will appear at a concert here next week, is noted among her many friends and admirers as the "self-made girl." She is thoroughly typical of the great Mid-West and all who know her say it is impossible not to fall in love with her at sight. Her remarkable character is as winning as her fine voice.

Born and raised on her father's ranch near Yankton, S. D., at three years old she was so completely at home on the back of a horse she would ask to be put on the wildest bronchos and would outgallop her father in rounding up the herds.

Before she had reached her teens she could cast a lariat and throw a steer as intrepidly and neatly as the best of the cowboys. She could also be as quick with a pistol and deadly with a rifle as the coolest and oldest hand.

Her unusual independence of character became evident equally early. She always preferred boys' clothing and dressed as a girl only at home in the evening or when visiting. Rather than accept "pin money" without earning it she obtained all the money she needed by following the huskers during harvest and selling her gleanings to her father at so much a bushel.

One of her greatest pleasures now, outside of her music, is to return for a vacation to the old ranch life and dressed as a man, put in a spell at broncho busting or, with big hip boots on, go duck hunting.

The Fleming Sisters Trio appear jointly with Miss Amy Ellerman at the Main Street Christian church Friday, October 3d.—Adv.

Asserts New Discovery Brings Blessed Relief To Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease.

And best of all this remedy costs almost nothing. Get a one ounce bottle of Mentholized Arcine at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily sniff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work; but oftentimes simple natural remedies are the best as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

BIG TRADE IN REAL ESTATE THIS MONTH

Consideration First Half of Sept. Amount to \$367,269.17 and Including Several Farm Sales Amounting to More Than \$20,000.

The real estate transfers for the first half of the month show a big realty trade in the county. Considerations mentioned amount to \$367,269.17, including several farm sales amounting to more than \$20,000 each. The largest sale of the period was \$37,440, which sum was paid for a farm of 156 acres in Richland township. The transfers follow:

Alva Newhouse, trustee Jackson school, twp., to Harry McManus, one acre in Jackson twp., \$566.67.

Ara D. and Della Tuttle, to Carrie Morris, 1 acre in Ripley twp., \$400.

Caroline Wilson to Rosella and Zachariah H. Crawford, a lot in Henry Gear's addition to Carthage, \$1200.

Nathan and Mary E. Tompkins to Marion and Ida Harcourt, 40 acres in Anderson twp., \$12,000.

Oliver Harcourt, et al. to Robert D. and Maude Templeton, 160 acres in Orange twp., \$24,000.

Oleva and William Dill to J. Russell Pablow, 110 acres in Ripley twp., \$22,000.

Samuel J. and Flora B. Webster to Thomas Royal Lee, 50 acres in Posey twp., \$10,500.

Bessie L. and James E. Jinks to Allen R. Holden, et al, undivided 1/28 of 160 acres in Noble twp., \$1,000.

Albert and Ola Reed to Robert A. and Nettie Campbell, 80 acres in Orange twp., \$16,000.

John H. and Florence Vernon to Albert Reed, 80 acres in Orange twp., \$18,500.

Emma Saxon to Mark E. Laughlin, 80 acres in Union twp., \$14,000.

Elsie Pitman and Edward Pitman to Harriet J. Flinn, north half of lot 18 in L. Sexton's Second addition to Rushville, \$1 etc.

Harlan P. and Jennie Overleese et al, to Rolla and Lorrinda Muir, 64 acres in Anderson twp., \$8,000.

John G. and Jessie Hammond to Rea C. Power, 160 acres in Anderson twp., \$36,000.

Frank J. Hall, executor will of Anna M. Demmer, to Joseph J. Madden and Frances Madden, south half of lot 40 in L. Sexton's Heirs second addition to Rushville, \$1100.

Omer A. and Dessie Miller to Willie Adams, 80 acres in Walker twp., \$15,200.

Matilda J. and Daniel M. Kinney to John G. Miller, lot 13 in Payne, et al, trustee's addition to Rushville \$3,500.

Laura Stamm to Hattie O. Noah, part of lot 16 in Sexton's Heirs Addition to Rushville \$2,100.

Henry and Martha J. Leisure to Charlie Leisure, quit claim to a tract of land in Posey twp., to correct an error in a former deed.

Samuel L. Innis, admn'r estate of Phoebe Dudgeon, to Laura M. Hasty, 21 acres in Anderson twp., \$2,500.

Clifton and Anna Wiley to Samuel Maines, part of lot 34 in Moscow, \$160.

Rebecca M. Hinchman to Morrison and Mary Beaver, lot 7 in Lewis Maddux addition to Rushville, \$3,500.

Frank C. and Mary S. Hauntz to Jonathan F. Fore, 40 acres in Union twp., \$9,600.

Herbert and Fannie Holden to Theodore F. Holden undivided 1/28 of 160 acres in Noble twp., \$1,000.

Francis M. Gordon to Lewis J. and Nellie M. Gordon, 63 1/3 acres in Washington twp., \$9,500.

James H. and Ollie Wright to Charley and Marie Holden, 101 acres in Orange twp., \$15,000.

Omer and Kate Pierson to Martha A. Hall, parts of lots 108 and 109 in the original plat of Rushville, \$3,500.

Henry V. and Bertha O. Logan to Wilbur Mahin lot 67 in Payne, et al, trustees' addition to Rushville, \$5,000.

Sylvester C. and Mary E. Kirkpatrick to Oliver M. Siler interest in 87 acres in Jackson twp., quit claim, \$5,200.

Spencer L. and Luella E. Ryon to George W. and Rosa Dunn, a tract of land in Noble twp., \$2,350.

Lizzie Moor Chew and Alfred L. Chew, to George W. and Rosa Dunn 156 acres in Richland twp., \$37,440.

Gates Ketchum and Noah L. Goddard, commissioners, to Rue Miller, 80 acres in Walker twp., \$28,800.

Edward and Minnie W. Adkins to J. Earl Morris, 116 1/2 acres in Ripley twp., \$13,000.

Clement L. Heaston to Harvey and Bertha Miller, 22 1/2 acres in Jackson twp., \$4,500.

Johnny and Jessie E. Murphy to Henry P. and Savanna Metcalf, 5 acres in Noble twp., \$1,000.

Thomas J. and Edna M. Fleetwood to Dorsey A. Hungerford, 25 acres in Orange twp., \$6,250.

Jonathan F. and Claudean Fore to Alfred and Hattie B. Collyer, 40 acres in Union twp., \$9,862.50.

Richard and Alma W. Fleehart to James Arnold, 40 acres in Rushville twp., \$12,000.

The Grover and Layman Realty Co., to Peter Gibson, lot 67 in Bel-

mont Addition to Rushville \$310.

Elizabeth Tribbey, et al, to Jesse F. Price, 51 acres 12 1/2 sq. rds. in Posey twp., \$9,000.

Edna P. Crull and Ruth Crull to Chester A. and Ada M. Hall, a parcel of land in Rushville twp., \$2,550.

John M. and Eva A. Stone to Ernest J. Grubbs a lot in New Salem, \$1,164.

Hettie Retherford to Rush G. Budd quit claim, to a part of lot 8 in W. A. Callen's addition to Rushville, \$15.

Flora E. and John F. Walker, to James E. Gatewood, 2 1/2 acres in Jackson twp., \$1,000.

KENSO ADACHI GIVES ADVICE "KEEP COOL"

Declares Outbreaks in United States Against Japan are Merely for Political Effect.

IS A SHREWD POLITICIAN

Tokio, Sept. 24—"Keep Cool".

That was the advice given to his countrymen by Kense Adachi, the "Colonel House" of Japan and credited as one of Japan's shrewdest politicians, when he returned from a tour of Europe and the United States.

Outbreaks against Japan are occurring regularly in United States, he said, but merely for political effect with the presidential election in mind, he declared. The republicans in the senate do not represent the majority of America and the senate foreign relations committee's Shantung amendment will not be accepted by the senate, Adachi declared.

WILL DISCUSS "FLU" AT YEARLY MEETING

Indiana State Medical Society Will Take up the Study of the Disease From Various Angles

THREE DAYS NEXT WEEK

A number of papers dealing with the various phases of influenza will be read at the annual session of the Indiana State Medical Association which will be held at Indianapolis next Wednesday, Thursday and Friday. The profession of the state is making a special study of the disease in view of the possible recurrence of last year's epidemic. Among papers dealing with the subject will be the following: "Influenza in Children," by Dr. Nettie B. Powell of Marion; "Clinical Manifestations and equeae in Influenza," by Dr. Charles P. Emerson of Indianapolis, and "Correlation of Bacteriological and Pathological Findings in Influenza in One Hundred Necropsies at Camp Taylor" by Dr. E. N. Kime of Indianapolis.

The session will open with a smoker on Wednesday evening at which luncheon will be served and various cabaret features arranged for the visiting members. The scientific program will begin Thursday morning and continue through Friday. On Thursday night a dinner will be held in the Riley room of the Claypool Hotel. Business meetings will be held Wednesday evening and Friday morning. Among the other features of the session will be a reception to

be held at the new Indiana University School of Medicine Building on Thursday afternoon. A special entertainment program has been arranged for the women who will accompany the doctors, including a visit to various clinics, a luncheon and musicale.

DID YOU EVER SEE ASBESTOS SWEAT?

WET WITH SWEAT

Every time a fire is built in a range the body gets wet with sweat. Sweat Rusts.

Is There a Doubt in Your Mind?

Come then and see for yourself. See the Sweat roll up in beads on the iron body. See the Sweat that causes Sweat-Rust, a disease that eats up and rusts out range bodies from the inside. Then, see how good, old, everlasting copper is placed between the asbestos and range body. See the domes on the sheet of copper. See the air spaces formed by the domes. See the thermos bottle principle actually applied to ranges.

A WEEK OF DAILY DEMONSTRATION BEGINNING SEPT. 29

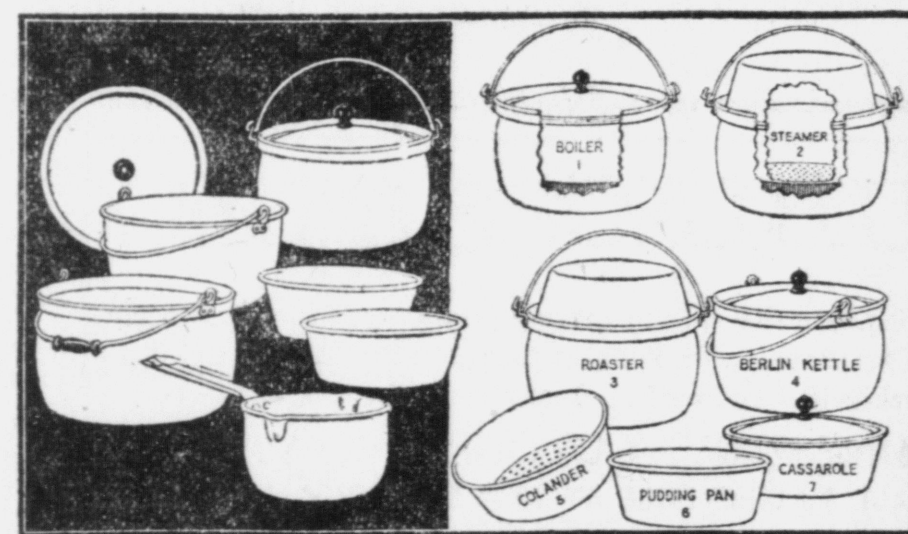

The Copper-Clad Range is as Plain as an Automobile Body

The first automobiles made were fussy, full of ornaments, hinges, catches and latches, but the men who cleaned the automobiles kicked on these things that made so much work and trouble. Then the hinges and latches and catches were put on the inside of the body, clear out of sight—clear out of the way. If men cleaned ranges, the frills and ornaments and fuss and feathers all over the average range would have disappeared 40 years ago.

Clean, smooth, plain, elegant, lined with copper to prevent Sweat-Rust—with four walls and an air space to confine the heat like a thermos bottle—the Copper-Clad is King of the range world. No range compares in any way at any point.

Copper-Clad Means
Pure Sheet Copper is placed between the sweaty asbestos and the range body. To place it elsewhere would be like climbing on top of a roof to get out of the wet.

THIS Set of Elegant Aluminum Ware FREE

"Free" means that this ware does not cost Copper-Clad buyers a single penny. It is a reward for buying while the Crank is here and is offered by him to justify you in attending this sale.

This ware is very substantial and just the kind that you would select if buying for your own use. The 7-in-1 convertible cooker takes the place of seven different vessels, as shown by figures 1, 2, 3, 4, 5, 6 and 7. You can use this utensil in some form every day.

Free to every Copper-Clad buyer during this sale. Come—See the Asbestos Sweat.

HOT ALFALFA BISCUITS

Alfalfa Biscuits baked in a Copper-Clad oven is about the Goodest Biscuits you ever tasted. Come and taste—stay and eat. Alfalfa Biscuits with butter and hot drip coffee will be served every day. COME—bring your friends and make yourself at home.

MAN INJURED BY CAR CARRIES GOV'T POLICY

Delbert Pratt, Who Received Mashed
Legs Last Friday by I. & C.
Car Has \$10,000 Insurance

THINK HE WILL RECOVER

Delbert Pratt, who was crushed under an I. & C. traction car at Adams last Friday evening, resulting in the loss of both feet, carries a \$10,000 insurance policy with the government, it was announced today. Under the terms of this government policy, it is estimated that Mr. Pratt will receive a monthly compensation of about \$78 for a period of 20 years, the life of the policy.

Mr. and Mrs. George Platt, parents of the young man, went to Indianapolis yesterday and spent the day with him. Word received from the Methodist hospital, where he is being cared for, states that he is getting along as nicely as could be expected, and his attending physicians are confident that he will recover.

County News

Orange

Mrs. Ida L. McKee spent Saturday afternoon in Connersville on business.

TO FORM ROUND TABLE

Indianapolis, Ind., Sept. 24—More than twenty-five leading clubs of Indianapolis were to send representatives to a meeting here today to perfect a permanent organization and to close the charter of a proposed council of clubs to be known as the Round Table.

The Hot Blast Air Tight

FLORENCE

Beware of imitations or people who claim to have a stove like or just as good as the FLORENCE. Do not be deceived by such false claims and find out when too late.

Examine the Florence carefully before you buy.

The FLORENCE will burn WOOD as well as coal and will burn coal better than any other stove made

The Only Absolute Smoke Consuming Stove on Earth
No Smoke! No Soot! No Dirt! No Clinkers!
Everything is Consumed

The only jointless leg bottom and base with full radiation and large ash pan that is on the market or has ever been made in the history of the stove industry.

The jointless leg bottom and base makes the stove air-tight below the grate, which is the only true fire keeping principle.

It will be as good a fire keeper twenty years hence as it is today.

The HOT BLAST AIR-TIGHT FLORENCE will heat twice the space that can be heated by any other stove on earth at one-half the cost. The only perfect floor heater that is or has ever been made.

All features are patented and no stove manufacturer, dealer or user can copy or use same until the expiration of the patent without incurring liability for an action for damages.

THE HOT BLAST AIR-TIGHT FLORENCE burns soft coal, wood, slack and all the smoke and gasses. No filling up of the stove pipe or flue with soot. It will produce one-half less ashes than any other stove on earth with any kind of fuel and leave no clinkers or half consumed fuel.

Prices from \$29.00 to \$58.00. Why pay \$15.00 to \$20.00 more for other makes of stoves when they will not equal the FLORENCE

HEBRAIC HOLIDAY OBSERVED

Rosh Hashana is One of Most Beautiful Celebrated by Jews

Rosh Hashana, one of the most beautiful and solemn of Hebraic holidays, will be celebrated tonight and tomorrow by all Jews. The orthodox congregations observe the event for two days. Shuster and Epstein's store will be closed tomorrow in observance of the holiday.

According to the Jewish calendar it is New Year of the year 5680 corresponding to Wednesday, September 24, 1919. It ushers in the ten days of penitence. Rosh Hashana is a day of sublime festivals. Prayer constitutes the salient feature of the service, whether it be in a reformed or orthodox congregation.

SENATOR MOVES TO SEND TROOPS

Leading Administration Spokesman From Mississippi Would Give President Power

REPLACE BRITISH FORCES

Troops Should be Sent to Armenia Until Affairs are Composed Under Peace Treaty

Washington, Sept. 24.—Senator John Sharp Williams of Mississippi, who is a leading administration spokesman in the senate, has set the ball rolling toward the sending of American troops into the Near East. It has been well understood for some time that the administration favors this proposition.

Senator Williams has introduced a resolution to authorize the President to use whatever American military forces may be necessary to maintain order in Armenia until Armenian affairs are composed under the peace treaty.

Under this, there would be no limit to the number of troops the President could send, provided, of course, they are available. They would go in as British divisions are withdrawn.

The proposition has caused no small measure of attention in Congress. It is commented on as being in harmony with the desire of the president that the United States take a mandate in the Near East. Likewise, it is in harmony with the mission of General Harbord and other officers to the Near East.

How long the troops would have to stay and what complications they would be involved in are questions unanswered. It is generally assumed here, however, that, in the first place it would require something more than a small contingent of troops to hold things down in the Armenian region, which, though it looks small on the map, is, in fact, extensive. What complications American troops would get into with the Turks and Kurds is something conjectural, though it is clear that if difficulty did arise and there was fighting the American forces might be held in Asia indefinitely.

Under the circumstances, the foreign relations committee, to which the resolution has been referred, will consider very carefully what the resolution might lead this country into before it sanctions it.

It is true that the administration insists, congress would be consulted. What a majority of the senate

insists, however, is that there must be no guesswork or opinion about it and that it must be down in black and white that no mandate shall be taken unless congress explicitly permits it.

It is estimated that about one-thirtieth of the entire Jewish race is resident in New York city.

Big Lot of Hay Fever Jokes

But Kentucky Man Says—"People Who Belong to Hay Fever Colony are Kidding Themselves."

Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy Was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city. "But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcline and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer.

"Many of my hay-fever friends tell me that by starting to gargle and sniff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcline say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

7 A DAY FOR 7 DAYS

If Your Nerves are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keep mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition. All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

Probable Opponents of the Reds Regarded as Team of Veterans

No Bunch of "Spring Chickens" that Pat Moran Will Stack His Aggregation Against in World Series if White Sox Win American League Flag.

It's no team of "spring chickens" that Pat Moran is going to stack his Cincinnati Reds against in the world's series. Both in years and experience "Kid" Gleason has in the White Sox what can be considered a team of veterans. The main cogs of the machine that weathered a heavy storm and copped the American League rag for him are real veterans at the game, while the majority of them have been on the "ups and downs", back and forth, from the minors to the majors.

"Happy" Felsch, one of the bulwarks of the outfield is the youngest member of the clan. He is 25. "Kid" Gleason, gray topped with 54 years, is the senior member of the firm. Betwixt and between, as they say, are Eddie Cicotte 35, John Collins 33, Joe Jackson 32, Eddie Collins 32, Faber 31, Chick Gandil 30, Bill James 29, Claude Williams 28, Buck Weaver, 28, McMullin 28, Eddie Murphy 28, Ray Schalk 27, Leibold 27, and Risberg 26.

Brief history of the career of the American League champions follows:

Edward F. Collins (second base) born in Millertown, N. Y., 32 years ago. Played three years with Columbia university before Connie Mack signed him in 1906. The White Sox bought him in 1915 for a reported price of \$50,000. He has a batting average of .331 for his major league career, throws right handed and bats left-handed.

George D. (Buck) Weaver (third

base) was born in Stowe, Pa., and is 28. He was signed by Cleveland in 1909 after a year with St. Mary's College and the Pottstown semipro. He was released to Saginaw in the Southern Michigan league and in 1910 played with Northampton in the Connecticut League and York in the Tri-State league. He went to the White Sox in 1911 and was released with strings to San Francisco. In 1912 he was recalled by the White Sox and has been a regular since. He bats around .260 right handed and throws right handed.

Joseph Jackson (outfielder) was born in Brandon Mills, S. C., 32 years ago. He started in 1907 with the Greenville semi-pros. Connie Mack signed him in 1908 and he was sent to Savannah in South Atlantic League in 1909. Was recalled to the Athletics in 1910 and sold to Cleveland. Later he was farmed to New Orleans in the Southern League and was brought back to Cleveland in 1911. The White Sox got him in 1915 in exchange for Roth, Klepper and \$31,500. He worked in the shipyards during the war. He bats around .365.

Arnold C. (Chick) Gandil (first base) was born in St. Paul and is 30. He started in 1906 with Amarillo, Tex., and Humbolt, Ariz. In 1908 he was signed by Shreveport in the Texas league and was drafted by the St. Louis Browns in 1909. He was released to Montreal by the White Sox in 1912 and then traded to Washington for Cunningham, Becker and Akers and \$3,500. In 1916 he was sold to Cleveland and ended with the White Sox in 1917 for \$3,500. He bats around .275.

Harry Leibold (outfielder) was born in Bentler, Ind., and is 27. He start-

ed his professional career in 1911 with Milwaukee in the American Association; was drafted by Cleveland in 1912 and released in 1915 to the White Sox for waiver price. He bats around .245.

Oscar (Happy) Felsch (outfielder) was born in Milwaukee and is only 25. He started with the city league of his home town 1912 and went to Fond du Lac the following year. He was sold to the White Sox in 1914 for \$7,000. He is a .278 batter.

Raymond W. (Ray) Schalk (catcher) born in Harvel, Ill., is 27 years of age. In 1911 he went from Taylorville to Milwaukee in the American Association for \$700. The White Sox bought him in 1912 for four players valued at \$17,000. He is a .249 stickler.

John F. Collins (outfielder) was born in Charlestown, Mass., and is 33 years of age. He started out in 1907 with Haverhill and went to Springfield in the Connecticut League in 1909. The following year he was sold to the White Sox. His batting average runs about .275.

Edward J. Murphy (utility) was born in Hancock, N. Y., 28 years ago. He started in 1911 with Villanova and went the same year to Scranton in the New York State League. He was sold to the Athletics in 1912, and was released later to Baltimore in the eastern league. He was recalled to the Athletics in 1913. He was sold to Chicago in 1915 for \$13,000. He generally bats around .290 but has been clouting this year as a pinch hitter around .500.

Frederick McMullin (infielder) was born in Seamon, Kas., and is 28 years old. He started with Seattle in 1912 and went to Tacoma in the Northwest League. He was sold to Detroit for \$15,000 in 1914 and sold to the White Sox in 1916 for \$3,500. He bats around .275.

Charles A. (Swede) Risberg, (shortstop) was born in San Francisco and is 26 years old. He came to the White Sox in 1917 from the Vernon Pacific Coast League where he began his career in 1912.

Edward V. Cicotte (pitcher) was born in Detroit and is 35. His career started in 1904 with Calumet in Northern Copper league. He was sold to the Tigers in 1905 and released to Augusta in the South Atlantic League. Detroit recalled him in 1906 and he was later released to Indianapolis. From there he went to Des Moines in the Western League. Again Detroit recalled him and sold him into Lincoln in the Western League in 1907. Boston claimed him in 1908 and he pitched for the Red Sox until 1912 when Chicago got him on waivers. He won fame as the "shine ball" artist and is one of the best, cleverest pitchers now in the game.

Claude P. Williams (pitcher) was born in Springfield, Mo., 28 years ago. He started in 1911 with Springfield and went to Nashville in 1912. Brooklyn signed him in 1913 and he was farmed back to Nashville. He was released to Detroit in 1913 and was sent to Sacramento in 1914. He pitched with Salt Lake City in 1915 and went to the White Sox in 1916.

Urban C. Faber (pitcher) was born in Cascade, Ia. He is 31 years old. He first pitched with Dubuque in the "Three I" league where he came from St. Joseph's College in 1908. Pittsburgh drafted him in 1910; loaned him to Dubuque and later recalled him. He was released to Minneapolis in 1911 and from there went to Pueblo in the Western League. He was transferred to Des Moines and then sold to Chicago in 1914 for \$3,500. He served in the navy during the war.

William Henry James (pitcher) is 29 years of age. He started pitching in 1909 and has been with ten clubs in as many years including Cleveland, St. Louis, Detroit, Boston, Chicago and the minors. He served in the army.

David C. Danford (pitcher) is 29 years old. He was born in Granger, Texas. He started in 1911 with the Philadelphia Athletics and was released to Baltimore in 1912 and was sold to Louisville in 1914 for a reported price of \$2,500. The White Sox drafted him in 1915 and he has been there since.

Grover Lowdermilk and Roy Wilkinson (pitchers) are both products of the American Association, who have spent several seasons in trips to and from the majors. Lowdermilk has been with the White Sox all

ANNOUNCEMENT OF INTEREST TO INDIANA INVESTORS

S. W. STRAUS & CO. announce the opening of a branch office to serve their rapidly increasing clientele in Indianapolis and vicinity. Its location is in the

Merchants Bank Building
Washington and Meridian Streets
INDIANAPOLIS

The office is under the direction of Mr. T. P. Burke, who for years has represented us in this territory.

To our clients we wish to extend our thanks for their continued courtesies and in our new quarters shall endeavor to give them increasingly efficient investment service.

To all interested in investments of exceptional safety and attractive income we offer our services, the value of which is indicated by our record. Since this House was founded in 1882, no investor has ever lost a dollar of principal or interest on any security purchased of us.

Perfection's Price In Tire Building

A tire-maker's first problem is to decide how much he can give for the money. This, and every other question in tire building, depends upon policies.

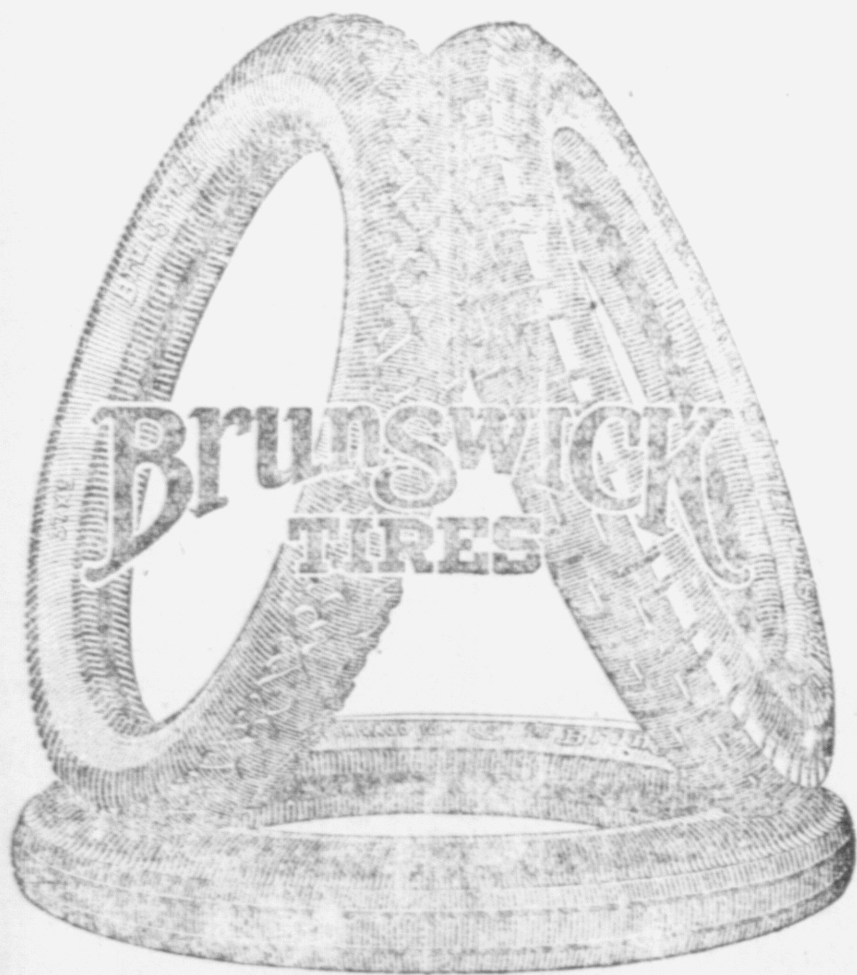

A super-tire, such as The Brunswick, can be made only by a concern which knows well and appreciates that there is nothing exclusive in the tire industry except high standards.

Since 1845 the House of Brunswick has held first place in every line it entered. Brunswick Tires, as more and more motorists come to know them, will certainly be awarded that coveted place held only by the superfine.

Motorists who buy one Brunswick usually adopt it for complete equipment. Yet this is not strange, since the first one so completely proves its superiority.

If the name of Brunswick certifies to you, as to most men, an extraordinary tire, at no higher price, would it not be good business to test one or two Brunswick Tires?

THREATENED HARM TO DIVORCED WIFE

Martin Corteur of Indianapolis,
Armed With Shotgun, is Ar-
rested by Sheriff Near Mauzy

SANITY INQUEST TO BE HELD

Mrs. Ora Stevens, Sister-in-Law of
Former Wife, Sees Him and
Probably Prevents Tragedy

Martin Corteur of Indianapolis is in jail here, as the result of an episode which might have proved fatal for several people living in the vicinity of Mauzy, when he arrived there yesterday afternoon on a traction car from Indianapolis, and armed with an automatic repeating rifle, ready to do harm.

Corteur was later arrested by Sheriff Jones, and placed in the jail here, and told his reasons for coming to Mauzy. An insanity inquest was expected to be held this afternoon as his mind is evidently affected.

After alighting from the car in Mauzy, he accosted Mrs. Ora Stevens, who was in the station waiting for the car coming to Rushville. He was acquainted with Mrs. Stevens, and asked her about Mr. and Mrs. Vincent Gray, saying that he had come from Indianapolis to straighten out some difficulty. Mrs. Stevens is a sister of Vincent Gray.

According to his story, Vincent Gray married his divorced wife, and at the time the divorce was granted, the custody of their two children was to be shared equally between them. Corteur stated that he has never had the children in his custody and that they have always been with their grandparents in Shelbyville.

Leaving Indianapolis he had his repeating rifle wrapped in newspaper, and a box of shells in his pocket. When Mrs. Stevens told him she didn't know where he could find the Grays, he said he would find them, and began to unwrap the gun. This action frightened Mrs. Stevens and she notified Mr. and Mrs. Gray, and all three of them came to Rushville to get the sheriff.

Sheriff Jones, Deputy Hugh Jones and Joe Larkin started for Mauzy, and located the man along the railroad, getting over the fence into a corn field. They followed his tracks in the field, and finally overtook him, when he sat down to rest. He gave himself up, and admitted that he had come to Mauzy to do somebody harm.

When placed in jail, he remarked that where he made his mistake was in not getting Mrs. Stevens out of

WOULD GIVE ITALY FIUME

President Wilson Favors This Dis-
position of Port

(By United Press.)

Rome, Sept. 24.—The Paris correspondent of a Roman paper reported today that President Wilson's reply on the Fiume dispute, reached the American peace delegation last night and assigned Fiume to Italy on the condition that the port is not fortified and placed under control of the league of nations.

According to the correspondent, the president established the present armistice right as the boundary fixing the extent of the Fiume territory.

AN INJUNCTION IS GRANTED BY COURT

Judge Sparks Decides David Tem-
pleton Has Right to Sow Wheat
on His Own Farm

CONTESTED BY JEHU CRAIG

Present Tenant, Whose Lease Ex-
pires Mar. 1, 1920, Refuses to
Allow Anyone Put in Crop

The case of Templeton against Craig, which was one asking for an injunction, where Judge Sparks granted a temporary restraining order a few days ago, until the trial could be held, was settled this morning, by rendering judgment for the plaintiff.

The case was a peculiar one, as it dealt with a farm lease between David Templeton and Jehu Craig, which was in effect from March 1 of this year until March 1, next year. Templeton, the owner of the land, wanted Fred Mohler to sow wheat on an 80-acre tract, but according to the allegations, Craig had threatened to do bodily harm to anyone who attempted to sow the wheat.

The case was tried yesterday, and was taken under advisement. This morning Judge Sparks rendered his decree, which entitles the plaintiff to an injunction perpetually enjoining the defendant from sowing any wheat in the lands of the plaintiff, and also holding it legal for Fred Mohler or anyone else whom the plaintiff might wish, to enter upon and sow wheat in the land. The decree also stated that the contract between the two would end on March 1, 1920.

The costs in the case were paid by the defendant, except the witness fees, which were to be paid by the plaintiff.

Mrs. Letha Buckner filed an answer to the divorce suit of Samuel Buckner against Letha Buckner, asking the court to have the plaintiff issue her funds in which to carry on the action. Judge Sparks set Thursday morning at nine o'clock as the time for hearing the defendant in her cause.

The case tomorrow which will occupy the day, will be the state against Sanford Heaton, on an assault and battery charge. The case was lately tried in Squire Stech's court, and Heaton was given a fine, and the case was appealed to the circuit court. Many witnesses from the Heaton neighborhood have been summoned, and the jury has been called for the case.

188 QUARTS ABANDONED

Franklin, Ind., Sept. 24.—A large touring car, wrecked north of Franklin, Tuesday, was found to contain 165 pint and 96 quart bottles of bonded whiskey. The owner abandoned the car, and officers called to the scene, have been unable thus far to find him. The bottles were wrapped with padded paper.

MOB VIOLENCE IN BIG STEEL STRIKE

Cleveland Strikers Attack Negro
Steel Company Employees and
Two Are Badly Beaten

ONE OF STRIKERS STABBED

Buffalo and Chicago Are Also Scenes
of Violence When Strikers
Clash With Troops

(By United Press.)

Cleveland, Ohio, Sept. 24.—Rioting broke out here today when a crowd of strikers discovered several negro steel workers employed at odd jobs in one of the American steel and wire company's plants, on a street car.

The car was stopped and the negroes dragged to the street. In the fight that followed two negroes were so severely beaten that they were removed to a hospital. One of the strikers was stabbed by the negroes.

Police arrived while the battle was going on and six of the strikers were arrested.

Strikers Beat up 8 Men

Chicago, Ill., Sept. 24.—The first violence of the steel strike in the Chicago district today resulted in extra guards being put about the plant of the Marks Manufacturing Company at Indiana Harbor, Indiana. Eight men, badly beaten when a mob of four hundred strikers surrounded a changing shift, were taken to an emergency hospital. The men attacked said that they had just completed drawing all fires with the intentions of remaining away from the plant thereafter. The strikers after jerking the men, began throwing bricks. A few shots were exchanged.

Troops and Strikers Clash.

Buffalo, N. Y., Sept. 24.—State troops and striking steel workers clashed here today when the latter ignored a command to disperse.

The strikers began congregating on street corners in large numbers. The troop commander ordered them to move on. Strikers responded with a volley of stones. The troops then charged, using their clubs. Many of the strikers sought refuge in saloons but were followed and chased out.

80 Percent in Ohio Affected

Cleveland, Ohio, Sept. 24.—Paralysis gripped approximately 80 per cent of the steel industries in Ohio, union organizers claimed today, the third day of the steel strike.

RATIFYING TREATY WILL PREVENT STRIKES

This is President Wilson's Attitude
Toward Labor Difficulties in Gen-
eral

NOT TO ACT IN STEEL STRIKE

(By United Press.)

Aboard the President's Train, Sept. 24.—Ratification of the peace treaty with its labor provision will enable men to forget war and begin working toward industrial democracy which will prevent labor clashes like the present steel strike, President Wilson believes today.

This can be given as his attitude not toward the steel strike particularly, but toward labor difficulties in general. Although there was no hint from official circles, it may be stated that Wilson, having once already attempted to avert that strike is disposed to wait until both sides are ready to ask his aid and then probably he will propose an armistice until the industrial conference meets in Washington, October 6.

TO ASK REMOVAL OF STATE TROOPS

Action to This End to be Taken at
Conference of 24 Steel Union
Heads Late Today

ARE AFTER PUBLIC SYMPATHY

Charges Made That Police Are
Abridging Right of Free Speech
and Clubbing Strikers

(By United Press.)

Pittsburg, Pa., Sept. 24.—Action endeavoring to bring about the removal of state troops from the strike zone was scheduled to be taken today by a committee of twenty-four union heads and organizers directing the big steel strike.

The committee met in extra session here at eleven a. m. Charges that the strike police are abridging right of "free speech," clubbing and riding down strikers without cause and inciting trouble, will be presented to the committee to show that the attempts of all organized labor to keep the peace are fruitless. This will be called to the situation as a means toward gaining public sympathy.

The situation in the Pittsburg district is generally unchanged today.

A full report of the methods employed by the steel company and local authorities since the strike started, will be made by John Fitzpatrick, chairman of the strike committee, when he appears at the senate investigation tomorrow.

Fitzpatrick arrived today from Chicago and immediately went into conference with the strike committee.

Few Return to Work at Gary

Gary, Ind., Sept. 24.—Strikers in the Calumet district for the first time since the walk-out seemed to realize the seriousness of the business at hand, today.

Gary streets no longer gave the appearance of festival days as in the previous two days. Although the streets were crowded there was little hilarity as was noticed in the last two days.

They are not spending money in such a reckless manner. They are saving it in the face of the pull ahead.

Bank officials, the majority of whom are with the steel company, declare that \$300 is the average bank account of the steel worker. They can without aid manage to live without working until December 1.

With the exception of six, forty

THREATEN A COAL STRIKE NOVEMBER 1

Delegates of United Mine Workers of
America Will Act Unless Demands
Are Met.

ASK 6-HOUR DAY, 5-DAY WEEK.

(By United Press.)

Cleveland, Ohio, Sept. 24.—The United Mine Workers of America convention delegates were scattering to all parts of the country today, determined to call a nation wide coal strike on November 1, unless a satisfactory wage and working agreement is reached with the coal operations on or before that date.

The convention adjourned late yesterday after endorsing the wage and hour scale and giving their officials the power to call the strike.

An increase of 60 percent in wages of all classes of workers, time and a half for overtime, a six-hour day and a five-day week, will be demanded at the conference of miners and operators in Buffalo tomorrow.

TRIAL SET AT 4 P. M. TODAY

Taylor Case is Again Delayed Be-
cause of Grand Jury Session

The case of Chase Taylor which was to have been tried in police court this morning, before a special judge, was postponed until four o'clock this afternoon, at which time it will in all probability be tried. Prosecutor Albert Stevens was busy with the grand jury this morning, but expected that the afternoon session would be over by four o'clock. If such is the case, the trial will be held, and Mayor Irvin has appointed T. M. Green as special judge, on a motion filed by Taylor's attorney, for a change of judge.

MAKES EFFORT TO ERADICATE SMUT

M. F. Detrick, County Agent, is Giv-
ing Farmers' Seed Wheat Hot
Water Treatment Daily

AT COUNTY HEATING PLANT

Hopes to Get Rid of Loose Smut in
Few Years and Save \$200,000
in Wheat For County

With an outfit fitted up by himself at very little expense, Marion F. Detrick, county agriculture agent, is treating seed wheat at the rate of fifty to sixty bushels a day in an effort to eradicate the loose smut from Rush county wheat and thereby save the farmers of the county approximately \$200,000.

Although only a small percent of the seed which is being sown this fall has been treated to prevent the stinking and loose smut, Mr. Detrick believes that in a few years these enemies of the wheat crop can be put to rout because farmers whose seed is treated this year, will have good wheat for seed next year and many of their neighbors will avail themselves of the opportunity to get seed free from smut.

By this means eventually all of the seed will be freed of smut and the yield in Rush county will be increased one hundred thousand bushels. Estimates based on observations this year and last are that nine percent of the wheat crop was lost because of the loose and stinking smut. Counting the value of the wheat two dollars a bushel, it will be seen the farmers of Rush county will make \$200,000 by using seed which has been treated for smut or is free from smut. One hundred thousand bushels of wheat will make enough bread to supply Rush county, according to Mr. Detrick.

Mr. Detrick is using the hot water treatment to kill the loose smut, which is the most damaging. It is a sure cure for this disease and likewise will kill the stinking smut. The formaldehyde treatment is some times used for the stinking smut but will only eradicate the loose smut.

Mr. Detrick is treating seed wheat in the old county heating plant back of the jail, which has been abandoned since the new heating plant was installed in the basement of the court house last fall. He uses one of the boilers in the old plants to heat the water in a big tank, in which the seed is dipped.

When the seed-treating began, Mr. Detrick had a schedule for seven hundred and fifty bushels to be treated, but he does not expect now that more than seven hundred bushels will be put through the treatment because a few farmers have failed to appear at the hour given to them and can not take advantage of the chance to treat their seed unless they can get the place of some other farmer who fails to appear. About three hundred bushels have been treated, or will be donated to some

Continued on Page Two

WILL AFFECT THE LOCAL TAX RATE

Whether Highway Levy Shall be Ten
Cents in the Cause of a
Dispute

INTERPRETATION OF THE LAW

Highway Commission Contents Ten
Cent Rate on 1919 Valuation
Was Legislature's Idea

Decision as to whether the levy for state highways will be 10 cents on the hundred dollars as contended by the state highway commission, or 4 cents as desired by the state tax board, will affect the final tax rate that will be paid by local property owner. The controversy over the highway levy is waxing warm and a lively struggle is in progress.

The legislature provided for a 10-cent levy when it passed the new highway commission bill. The legislature also directed the state tax board to fix tax levies in accord with the increases in assessments as provided for in the new tax law. Those on the side of the highway commission contend that the legislature intended the commission should have a 10-cent levy based on the new assessments. Those on the other side say the levy was based on the old assessment and that the tax board should reduce the levy proportionately to the increase in assessments, as the board is doing in all other instances of the kind.

If the legislature intended that the 10-cent levy should apply on the basis of the total state assessment at the time it placed the levy at 10 cents then the levy for the highway commission would be fixed by the tax board to yield an amount equal to 10-cent taxes on each \$100 of the \$2,223,000,000, which was the old state total assessment. If the other theory applies then the state board would fix the levy at 10 cents on the new valuation, which is approximately \$5,750,000,000.

On the basis of the old assessment the state tax board would cut the 10-cent levy to a 4-cent levy, or slightly less. In fact this is what the state board had in mind until it met with a storm of protest from the highway commission. The commission contends that such a small levy was never intended by the legislature; that the people of the state want road building to the tune of a 10-cent levy on the new assessment; Continued on Page Two

DISCLOSES PACKERS WAR-TIME PROFITS

Report by Federal Trade Commis-
sion Shows They Were Also
Three Times Greater

CONFIDENTIAL DATA SHOWN

(By United Press.)

Washington, Sept. 24.—Disclosures concerning the packers wartime profits and attempts to have President Wilson change the food administration regulation under which the packers operated, were made today in a report submitted to the senate by the federal trade commission.

The report which was in response to a resolution by Senator Norris, of Nebraska, made public the confidential clashes which showed that the commission told the president the packers profit were unreasonably high and the food administration regulations should be changed to safeguard public interests.

The commission informed President Wilson in a report dated June 23, 1919, that the packers wartime profits were at a rate of two and a quarter to three times the earnings in pre-war days.

ARLINGTON YOUNG PEOPLE WITNESSES

Grand Jury Continues Investigation
and May Not Make a Report
Before October 1

NO SESSION FOR TOMORROW

The grand jury continued its investigations today, and many witnesses were called from Arlington. Most of those called in today were young people, and the real object of the investigation was not intimidated. The session of the grand jury has been long, and it is expected that several indictments will be issued.

Because of a trial in circuit court tomorrow, Prosecutor Stevens will not meet the grand jury, and it is not known just when they will continue their work. Prosecutor Stevens said this afternoon that it would probably be the first of October before a report would be made at which time indictments will be reported.

WILL AFFECT THE LOCAL TAX RATE

Continued from Page One
that on such a basis the state can carry on approximately a \$14,000,000 a year road building program in Indiana, with the maximum of help from the federal government. The commission has many backers in this contention.

Those on the other side say that

the 10-cent levy provided by the law would in reality be nearly a 30-cent levy, thinking in terms of the old state fiscal assessment at the time the 10-cent levy was provided for. They believe the legislature was never intended to give the highway commission so great a revenue at first; that the road building program in Indiana should proceed rather more slowly at first.

MAKES EFFORT TO ERADICATE SMUT

Continued from Page One
five barrels have been treated in one day.

Mr. Detrick charges twenty-five cents a bushel for the treatment to pay the expenses of equipping and operating the plant. If there is any money left in the fund at the close of the season, it will be pro-rated among those who had their seed treated, or will be donated to some worthy cause, according to the wish of the farmers who paid it in. Mr. Detrick is being assisted at present by W. W. Wood, from the federal bureau of plant industry, who is working for the time being under the direction of the Purdue extension department.

LONDON.—Charged with assaulting a young woman walking with her fiancé, a Maidenhead man pleaded that he was drunk and "must have thought it was his missus".

AUTO ROBES

We have a nice line of these in stock.
Come in and get first choice.

GUNN HAYDON

PROCLAMATION

Among the millions who have suffered at the hands of the oppressor during the war, none have been more sorely tried than the Jews. They have been driven desperate by starvation, denied clothing and shelter, and ground between the upper and nether millstone by persecutor at home and the invader from abroad.

The Jew has contributed in a substantial way to the advancement and prosperity of all the nations of the earth, and no people have been more patriotic, more liberty loving. He has fought under the flag of every nation in the name of liberty and justice for mankind. Thousands of Jews gave their lives in the cause for which we fought, and those who remained at home responded with fine patriotism and devotion to every call.

The American Jewish Relief Committee is devoting all of its energy and every dollar of its funds toward relieving misery and distress wherever found, without regard to nationality or religious creed, in the war-ravaged countries of the old world.

Today over 5,000,000 of hapless souls, old men and women and children, are actually starving to death. AND NOTHING CAN SAVE THEM EXCEPT THE GENEROSITY OF THE AMERICAN PEOPLE. It seems to me most fitting, therefore, that as Americans and citizens of the great state of Indiana, we should hear the appeal for these down-trodden and stricken people, the first general one they have ever made to the American public, and contribute of our surplus to a fund which will be devoted to their succor.

Therefore, knowing the warm appreciation of justice which abides in the hearts of our people, and the splendid generosity and spirit of brotherly love with which they respond to every call from their less fortunate fellows, I, James P. Goodrich, Governor of the State of Indiana, designate the period FROM MONDAY, SEPTEMBER 29TH, TO SATURDAY, OCTOBER 4TH, AS JEWISH RELIEF WEEK IN THE STATE OF INDIANA. I call upon all the people of our cities, towns and rural communities to organize their forces and get behind this worthy movement with true Hoosier spirit. No state has been more blessed with abundant crops than ours; our merchants and manufacturers and people of all classes have prospered beyond measure, and I am sure that our people will be willing to give of their bountiful store for the relief of suffering humanity. I appeal to the mayors and municipal officials throughout the State to lend their support in making this undertaking a success.

IN TESTIMONY WHEREOF I have hereunto set my hand and caused the Great Seal of the State of Indiana to be affixed, this 18th day of September, 1919.

By the Governor, **JAMES P. GOODRICH**, Governor.
WILLIAM A. ROACH, Secretary of State.

LEAVE FOR MIAMI SUNDAY

Dr. and Mrs. Will S. Coleman Will Drive to Future Home

Dr. and Mrs. Will S. Coleman will leave next Sunday in an automobile for their home in Miami, Florida, where Dr. Coleman will locate. They will carry a full camping outfit in their automobile and will sleep in a tent and prepare their meals along the way and will stay over in Washington and at other places enroute. Dr. Coleman returned from service in France a few months ago and then decided to locate in the south. He recently went to Jacksonville where he took the examination for license to practice and then made arrangements for locating in Miami.

RAILWAY STRIKE IMPENDING

Union Sends Ultimatum to British Government, Rejecting Offer

(By United Press.)

London, Sept. 24.—Great Britain today was threatened with a nation wide railway strike. After a meeting of the executives of the national union of railway men today, James Henry Thomas, general secretary, issued a statement announcing that an ultimatum had been sent the government rejecting its offer of wage and working conditions.

Thomas intimated that unless a favorable reply is received by noon tomorrow the men would be ordered to cease working.

—Mr. and Mrs. George J. Mosbaugh, of Santa Ana, California, will arrive today for a visit with their cousins, George W. Osborne and Mr. and Mrs. Clint Bodine.

—Mr. and Mrs. Henry Miller have returned home from Detroit, Michigan where they were called to attend the funeral of Simeon Smith who was fatally shot Sunday morning.

—Mr. and Mrs. Robert Brooks of Greenfield, who are attending the Friends Yearly Meeting in Richmond, are expected here in a few days for a visit of two weeks with relatives.

Autumn Styles that are Assured —and inexpensive too

Not one experiment will be found in our entire stock. Chosen with trained foresight every selection has been certified in the development of the season. Ours is surely a stock of distinction — both from the point of style and in the advantage of right pricing.

FORMER GIANTS ON OTHER CLUBS

Proposal Made After Howls Were Raised That Giants Were Trying to Buy League Pennant

JOHNSON FAVORS THE PLAN

Big Objections Came This Season When McGraw Landed Catcher Snyder in Trade for Driftwood

(By United Press.)

New York, Sept. 24.—Howls raised by several clubs and fans all over the country that the Giants were trying to buy the National League pennant this year may result in some legislation this winter to curtail the purchasing privilege of the major league clubs.

The proposal has come from several of the objecting clubs that all purchases or trades of players within the league be barred after July 1. They point out that this would make it impossible for a club to open its purse strings and make in reinforcements during the heat of a spirited pennant drive.

Ban Johnson, big boss of the American League, is said to favor the plan, but so far "Prexy" Heydler, of the older circuit, has maintained a staid like silence. Outside of New York, Chicago and Boston, where the expenditure of a paltry \$10,000 or \$15,000 doesn't put a crimp in the club coffers, the magnates are expected to line up in support of the measure.

The big howl came this season when McGraw landed Catcher Snyder in a trade for driftwood on the team. Later fans claimed he got all the best of it when he worked the Cubs for Phil Douglas and then Cincinnati yelled to the skies that the league was all for the Giants when McGraw bought Pitcher Nehf for an outlay that was said to represent \$40,000.

Meanwhile Pat Moran was almost on his knees for an outfielder that would release Pitcher Bressler from work in the gardens and enable him to take a regular turn in the box. When he had to go to the minors to get Outfielders See and Duncan, the Cincinnati folks charged loudly that the Giants got all the sweets in the league and that the other clubs wouldn't help the Reds even if Herrmann was able to spend the fortune that is always available for anything that McGraw wants.

The fiber of the Argentine guano plant having been found suitable for lace manufacture, a lace factory will be established in that country.

After-War Activities Of The American Red Cross

In memory of the American nurses who served in the world war, a service flag has been hung at national headquarters of the American Red Cross in Washington. This has 198 gold stars for the women who died in service. A large blue star in the center with the numerals 19877 represents the other nurses who were in the ranks.

Upon the Red Cross rests in a large measure the responsibility of keeping up the morale of the nation, with health and good citizenship as fundamental problems for consideration, according to Franklin K. Lane, Secretary of the Interior, who spoke before a recent meeting of Red Cross division managers and publicity directors in Washington.

Favoritism in the Army.

Scathing denunciation of those in authority in the army is voiced by Representative Charles J. Thompson, of Ohio, in urging charges that they have destroyed the national guard, reduced officers to ranks by so-called inefficiency boards, sent youths to prison almost for life for trivial offenses, unnecessarily executed soldiers before mitigating papers reached the Judge Advocate General, permitted the brutal beating of homesick and shell-shocked soldiers, locked up same white soldiers in wards and metal cages with insane whites and negroes, caused arbitrary delay in discharging enlisted and drafted men, failed to give proper promotions and otherwise comforted themselves with "favoritism, inefficiency, brutality and pusillanimity."

"If the crimes committed against the soldiers of the United States, both in America and abroad, by the autocratic military authorities," he says, in a statement today, "could be chronicled, a library of considerable dimensions would be required to hold them. Now that men are being discharged the truth is coming out. Some methods should be devised by Congress to rectify, if possible, some of the wrongs inflicted upon soldiers, and empty every prison in United States of every prisoner not a criminal under civil laws. I could be arrested for what I think of the present military cabal, which, in my opinion, could give Satan pointers on how to run Hades."

The ire of Thompson has been roused by witnesses introduced by him as the result of his resolution to investigate the Walter Reed and Saint Elizabeth's hospitals and interrogated during the past week by Representative Roscoe C. McCulloch, of Canton, a member of the house committee investigating the war department.

"At Savenay, in Hospital 214," said one witness, "some of the mental cases were really insane, but most of them were just worrying simply about home affairs. Yet they were locked up behind heavy screen-wired windows. If they did not do just what they were told in exactly the way it was told them, the boys were jumped on and beaten up. There was one man named Mooney. He had gone crazy over

religion. He never bothered anyone and just sat on his bed all day, saying his 'Hail Mary' and counting his beads. The side of his face was skinned where a couple of men had jumped on him and beaten him. He is just one I remember."

Switzerland is Suspicious

"Switzerland is a wonderful nation," declared Maor J. A. Louder, of Pittsburg, in an interview with a Washington Post correspondent recently. "It is a melting pot in a way for various nations. This country is perhaps the greatest experimental field in the world in many lines—politically, economically and socially." But Switzerland is unwilling to accept the invitation to join the league of nations unless she can do so on her own terms and with her own reservations. To enter unreservedly is an experiment she is unwilling to try. The United States is also a melting pot, far greater than Switzerland. Thirty-three percent of our population is of foreign nativity or of foreign parentage. We have been doing some experimenting ourselves in the political field of late years, without any particular benefits derived therefrom, and our economic experiments have about ruined the country. Switzerland's attitude toward the league is very much like that of the majority of the American people. And we have nearly all agreed it is high time to abstain for a season from experiments, and get back to a sound basis of government. That means the ousting of the hypocrites, the quacks, the demagogues, and the despots from control.

All of a sudden Baker scents Hun danger and gives that as an excuse for keeping American soldiers in Russia. And six months after we had entered the war, he gave us an excuse for not hustling soldiers to Europe, the fact that "the war is 3,000 miles away."

The Washington Post sums the whole matter up in a few words, in reply to the pro-covenanters who argue against reservations and amendments as follows: "Who'd have thought there were so many reasons why it would be fatal to make treaty changes that don't mean anything, anyhow?"

If the league of nations kicks up this kind of a row in the beginning what will it do when it is firmly seated in the saddle?

Untidiness is an injury to any business house. It has caused the loss of more customers than any other one thing in commercial life.

"The world is shot to pieces," shouts an exchange. Bird shot, or booze?

"America First" is an excellent slogan. But "America all of the Time" is a better one.

The milk of human kindness is a good thing—until it is curdled.

Love laughs at locksmiths, but keeps its weather eye on the dollar.

—Edmund Gartin was in Indianapolis today on business.

PHYSICAL TESTS ARE BEING HELD THIS WEEK

Candidates For National Guard Are Being Examined—Will Number About 3,000

ALL BRANCHES REPRESENTED

(By United Press.)

Indianapolis, Sept. 24.—Physical examinations of candidates for the new national guard are to be conducted this week by the federal national guard medical officers.

The guard will number 3,000 men when completed and will include infantry, artillery and cavalry.

Companies will be organized in every city large enough to support one, providing there is a demand in those cities for them.

The following cities have organized companies: Attica, infantry; Evansville, artillery; Madison, either infantry or artillery; Terre Haute, cavalry; Shelbyville, infantry; Fort Wayne, one company of infantry and one battery of artillery; Elkhart and Goshen, infantry.

Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

The only surviving member of the family of a Pennsylvania lumber king holds forth at his home town several months each winter. He has an office with his name on the door and sometimes comes down town in the mornings. Finding no one to talk to he usually drops in at his office for a smoke. His sole occupation has been cutting coupons every month and getting the local club out of debt. That is he did the latter before June 30, which he styles as the Last Day of the World. On all occasions as he leaves the office he always hangs a sign on the door, which reads:

WILL BE BACK AT THREE

Upon returning home for a few days this month he found another line printed below the one just given. It read:

WHAT FOR?

(Contributed by Mary Johnson, Lake Placid, N. Y.)

Contributions will not be returned unless stamped envelope, bearing your address, is enclosed. Mail stories to contest editor, Daily Republican.

WORK IN E. A. DEGREE

Phoenix Lodge, No. 62, F. & A. Masons, will have work in the E. A. degree Friday evening at 7:30 o'clock. A large attendance is desired.

Samples of embroidery work done by women in Palestine are finding a market through the American Red Cross, which is trying to keep the refugees on a self-supporting basis until they can return to their homes in Odessa.

CAR SHORTAGE HURTS COAL PRODUCTION

Due to Lack of Transportation
Mines in Indiana in Week of
Sept. 13, Worked Half Time

PRODUCTION WAS 532,128 TONS

Terre Haute, Ind., Sept. 23.—The car shortage made a tremendous inroad on the production of coal in Indiana during the week ended September 13 and was so serious on some roads that the mines were permitted to work only a little over half time.

Production for the week was 532,128 tons and the car shortage over the entire field amounted to 33.10 percent causing a loss of production of 268,313 tons, according to reports from 182 mines, tabulated for the United States Geological Survey.

The potential working time for the mines was 8,554 hours and they worked 5,264 hours. The Big Four Railroad had a car shortage of 41.03 percent, the C. & E. I. 29.53 percent, the C. T. H. & S. E. 35.40 percent and E. & E. I. 39.58 percent, the Pennsylvania 37.94 percent, the Monon 22.45 percent and the Southern 47.22 percent.

Very few operators have been able to ship enough coal to meet their contract requirements, and there has been very little free coal on the market. The price remains at from \$2.00 to \$3.00 a ton although there are isolated instances where lump coal has sold at \$3.25. Buyers who neglected to acquire the fuel supply a few weeks ago when it was available, are now besieging the offices of the operators in attempts to get early delivery, and most of them are finding exceeding difficulty in placing their orders.

TWO ASSOCIATIONS ARE MEETING TODAY

Indiana State Bankers and Indiana County Commissioners Will be Served Luncheon Jointly

ALSO RIDE OVER HIGHWAYS.

Indianapolis, Ind., Sept. 24.—Road building and administration of highway laws will be considered by the County Commissioners Association of Indiana which opened its annual convention here today.

The Indiana Bankers' association is meeting here at the same time and it has been arranged to serve luncheon to the two organizations jointly.

Tomorrow, a rural motor express parade probably will be held to show the bankers as well as the commissioners the importance of improved highways.

Joseph G. Hayes, Marion county commissioner, who has headed the association of commissioners for several years, will preside at the session of that body.

Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood.
Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh with S. S. S. during warm weather.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the root of the trouble. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Address Swift Specific Co., Dept. 53, Atlanta, Ga.

Light 5 Bars in Container

Mrs. Laura Wolverton will be hostess for the Industrial club tomorrow afternoon at her home in North Main street. All members are urged to be present.

The Lower reunion which was to have been held at the home of Mr. and Mrs. Thomas Lower Sunday, Sept. 28, has been postponed indefinitely, on account of the scarlet fever.

Mr. and Mrs. Elwood Kirkwood celebrated their thirty-fifth wedding anniversary today at their home near Orange. About thirty-five guests enjoyed the pitch-in dinner served at noon and the afternoon was spent socially.

Mrs. Robert Conover entertained the members of the First United Presbyterian Ladies Aid society yesterday afternoon at her home in North Maple street. The regular program was carried out and was followed by a business session.

Mrs. Ezra Hinkle and Mrs. Sanford Poston spent yesterday evening in Connersville and attended a banquet given in honor of the grand matron of the Eastern Star. Mrs. Cora B. Holland of Indianapolis. About two hundred were present at the banquet.

A number of friends and relatives of Mr. and Mrs. James Smith delightfully surprised them yesterday at their home near Orange, the occasion being in honor of their forty-fifth wedding anniversary. A pitch-in dinner was served at noon followed by a social afternoon.

Fifty-six members of the Meth-

odist Ladies Aid society enjoyed an all day meeting yesterday at the home of Mrs. Ab Denning west of the city. At noon a delicious pitch-in dinner was served and in the afternoon the regular business session was held, which was followed by a short program.

Mrs. Ernest Staida was hostess for the members of the Loyal Daughters class last evening at her home north of the city. Twenty-seven members were present to enjoy a social time, during which a contest was held. At the close of the evening delicious refreshments were served by Mrs. Staida.

The Pastor's Ladies Aid Society of the Main Street Christian church met yesterday afternoon in the church parlors. A short program was given, which was followed by a business meeting, at which time plans were made for a penny supper to be held Wednesday evening, September 22. Twenty-five members were present for the meeting.

The first meeting of the year of the Sorosis club was held yesterday afternoon at the home of Mrs. W. S. Saxon in Fairview. Only a short program was carried out, at which time the president addressed the meeting and one reading was given. The program was followed by a business meeting. The guests present were Mrs. Alta Wykoff, Mrs. Junken and daughter Mary and Mrs. Millie Johnson. The hostess served a lunch at the close of the meeting.

Forty neighbors and friends delightfully surprised John W. Pratt, Monday evening, at the home of his parents. A very pleasant evening was spent with music and games. Refreshments were served at a late hour. Those present were: Mr. and

Mr. R. J. Brooks, Mr. and Mrs. Vester Casey and children, Mr. and Mrs. Kendall, Lora and Noland Bogue, Alf Fry and family, Earl Grubbs and family, Mr. and Mrs. Sol McBride, Mr. and Mrs. Ole Thompson, Mr. and Mrs. Howard Steele, Mr. and Mrs. John Weiss and daughter, Mr. and Mrs. Baty Newhouse, Mr. and Mrs. Ode Winkler and children, Mr. and Mrs. Carroll Clifton and daughter, Clarence Roland and Harry Benham.

A very enjoyable evening was spent Friday evening when Mr. and Mrs. M. L. Stewart entertained several of their friends with a pitch-in supper at their beautiful country home near New Salem, honoring Mr. and Mrs. Jesse Stewart of Wamego, Kansas, who are visiting friends in this county. The house was beautifully decorated with cut flowers and golden rod and a large bouquet of asters formed the center piece for the table. After the supper was served the remainder of the evening was spent with music and a reading by Miss Letha Williams. The guests were: Mr. and Mrs. Jesse Stewart of Wamego, Kansas. Mrs. James Halstead and daughter Miss Jessie and son Paul Edwin, of Connersville, Mr. and Mrs. C. A. Reed, Mr. and Mrs. W. Stewart of Orange, Mr. and Mrs. James Stewart and son Dewey and Miss Anna Holton of Rushville; Mr. and Mrs. Bert Wilson and family and Miss Julia Neal of near Milroy; Mr. and Mrs. Ed Morris, Mr. and Mrs. J. O. Williams and daughter Ada, Mrs. Jane Matney and son Harold, Mr. and Mrs. James Williams, Mr. and Mrs. Ted King and family, Mr. and Mrs. Earl Williams, Mr. and Mrs. Clifton Stapp and family. Mr. and Mrs. Chester Williams and family. Mrs. Amanda McKee, Miss Anna Williams, Stanley Stewart and Ruby Stewart all of New Salem, and Jus-

Many People Report Big Gains In Weight

Thousands of Thin, Frail People Restored to Health by Tanlac

MANY REMARKABLE EXPERIENCES TOLD

People in all Ranks of Life Tell What Celebrated Medicine Has Done For Them

ONE of the most noteworthy features in connection with Tanlac is the one that stands out more prominently than any other, perhaps, is the very large number of well known men and women from all parts of the South who have recently reported astonishing and rapid increases in weight as a result of its use.

When so many well-known people of unquestioned integrity make statement after statement, each corroborating the other, the truth of such statements can no longer be doubted.

Thousands have testified that this famous medicine has completely restored them to health and strength, after every other medicine and the most skilled medical treatment have failed.

One of the most remarkable cases on record is that of Mrs. Viola Ives, of 315 Cross street, Little Rock, Ark., whose statement appears below.

"In May of 1913," said Mrs. Ives, "I suffered a complete breakdown of my nerves and my entire system gave way. About six weeks afterwards I was carried to the hospital. I became perfectly helpless—couldn't move any part of my body and just lay there in bed for five months, not knowing anything or anybody. I was brought home in October, 1913, and tried all kinds of medicine and everything I was told about.

"I read about so many people getting relief by taking Tanlac and my husband got me a bottle. After taking three bottles I began to feel better. I have taken several bottles of Tanlac now and I can walk anywhere and sleep like a child. When I took my first dose of Tanlac I weighed only one hundred and twenty-two pounds. I now weigh one hundred and sixty-two—an actual gain of forty pounds since I started on Tanlac."

Texas Man Testifies

Another remarkable case was that of John M. Crabtree, a general merchant of Five Mile Station A., Dallas, Texas:

"I have actually gained thirty-four pounds on three bottles of Tanlac and I now know what it is to enjoy good health after suffering for twenty years," said Mr. Crabtree.

"I suffered with catarrh of the stomach and indigestion for twenty years and for eighteen months, before I started taking Tanlac. I had to live almost entirely on cereals. I spent nearly all of one whole year in bed and was unable to do anything at all and I fell off in weight to 118 pounds."

"After using my third bottle of Tanlac I found I had increased in weight from 118 pounds to 152 pounds, making an actual gain of thirty-four pounds—all my troubles were gone, and I was feeling like another man."

Captain Jeff D. Riggs, popular T. & M. V. engineer, running between Vicksburg and New Orleans and residing at 2020 Pearl Street, Vicksburg, in speaking of his experience with Tanlac said: "Yes, sir, it's an actual fact I have gained twenty-five pounds on Tanlac."

"When I began taking the medicine," continued Captain Riggs, "I was simply a nervous and physical wreck and had dropped down in weight from one hundred and forty to one hundred and ten pounds."

"I have just finished my second bottle of Tanlac, have gained twenty-five pounds and I feel like a new man."

Mrs. Chas. Peden Gains 27 Pounds

Was Twice Examined And Told Operation Would be Her Only Hope.

"I HAVE just finished my third bottle of Tanlac and have gained twenty-seven pounds," was the truly remarkable statement made by Mrs. Charles Peden, residing at 55 Mill Street, Huntsville, Ala.

"When I commenced taking the medicine," she continued, "I only weighed ninety-eight (98) pounds; now I weigh 125 pounds and never felt better in my life. For years I have suffered with a bad form of stomach trouble, constipation and pains in my side and back. At times the pains took the form of and each time I was told that I had to have an operation and I was twice examined and told that an operation would be my only hope."

"I had made all preparations for the operation and called in my sister to tell her goodbye, as I did not know whether I would live to see her again or not. My sister begged and pleaded with me not to allow them to cut on me and told me to wait and try a good tonic for a while. The next day, as I returned from the consultation room, I thought of what she said, and as I had heard so much about Tanlac, I decided to try it and got a bottle."

"I never returned for the operation, but just kept taking the Tanlac. Right from the start I began to feel better. The medicine seemed to take hold right at once."

"I was so happy over the wonderful improvement in my condition that I sent for my neighbors to tell them how much better I felt. I sent and got another bottle of Tanlac, and have just finished taking my third bottle and feel as if I have been made all over again into a new woman."

Old-Time Engineer Talks

Engineer Chas. J. Weeks, who runs the Seaboard Air Line fast train "Fox" between Jacksonville and Tampa, bears the distinction of being the second oldest engineer in point of service with this road, having been with the company for thirty-five years.

"I have gained twenty pounds on seven bottles of Tanlac and feel as well and happy as I did when a boy," said Mr. Weeks.

"For twenty years I suffered with nervous indigestion of the worst sort," he continued, "and at times during the past fifteen years I didn't think I would last much longer. To tell you the truth, I finally reached the point where I didn't much care whether I lived or died."

Thousands of other people all over the country have reported the same astonishing gains in weight after taking Tanlac. Among these are: Mrs. E. O. Wilson, of 197 Bass St., Atlanta, Ga., who gained 25 pounds; Edward Reno, 1721 Broadway, Kansas City, Mo., who gained 25 pounds; Mrs. W. C. Cochran of Julietta, Idaho who gained 22 pounds; Mrs. Doll Davis of 108 Samuel Ave., Peoria, Ill., who gained 30 pounds; Chas. E. Shaffer, 508 W. Charleston St., Portland, Ore., who gained 24 pounds; Mrs. Amelia Mann, R. F. D. No. 2, Ogden, Utah, who gained 25 pounds; W. S. Hukill, 7308 Park Ave., Tacoma, Wash., who gained 20 pounds; Mrs. B. W. Smith 3113 Burdett St. Omaha, Neb., who gained 35 pounds; Fred W. Saunders, 710 Market St., San Francisco, Cal., who gained 24 pounds and many others too numerous to mention.

Tanlac is sold in Rushville by F. B. Johnson & Co. in Milroy by Dallas Copper, in Manila by Geo. J. Inlow and Arlington by Mrs. L. T. Davis. Adv.

FARMERS MEET IN GREAT CONGRESS

Representatives Will Debate Subjects of International, National and Local Interest

ANNUAL CONTEST OF STATES

Provinces and States to Compete For \$500 Cup to Determine Best Half Bushel Wheat in World

(By United Press.)

Kansas City, Mo., Sept. 24.—Undeterred by the experience last year when the "flu" epidemic caused the cancellation of the session's thirty minutes before the doors opened, the International Farm Congress and Soil-Products Exposition will hold the boards here this week. The farm congress, a world forum for agriculturalists, will be in session September 25, 26 and 27, while the exposition, which is held under the direction of the congress, will open September 24 for a period of eleven days.

Representatives of foreign nations and provinces, states, farmer associations, agricultural colleges and kindred institutions constitute the delegates to the fourteenth annual session of the farm congress. George Albert Smith of Salt Lake City, Utah, is president of the organization.

Before this body of representative agriculturalists of the world will be debated subjects of international, national, sectional and local interest. Representatives of the packing industry, a well-known official of the national grain board, advocates of Secretary Franklin Lane's land reclamation projects and others who have met with opposition from the men who till the soil will be present to take part in discussions.

Leading all other contests in interest at the exposition are the annual "Contest of the States" in which nations, provinces and states compete for a \$500 cup, and the competition to determine the best half-bushel of wheat in the world.

Although the sessions of the Congress and Exposition have been held all over the nation and once in Canada, two midwestern states, Nebraska and Kansas, have taken the largest number of sweepstakes in the "Contest of the States." The Sunflower State was a winner of first place in 1915 at Denver and repeated in 1916 at El Paso. Nebraska broke the Kansas run by taking first place in 1917 at Peoria, Ill., but the two states tied for first honors last year at Kansas City, where all prizes were awarded, although the exposition gates never opened. Each year the competition between the two states has been close. Bruce Wilson of the Kansas State Agricultural college assembled the exhibit for his state and Arnold Martin, of Dubois, Nebraska, is in charge of the Nebraska display.

Canada has won sweepstakes in the wheat competition five consecutive years. Seager Wheeler a Rosethorn, Saskatchewan, farmer, has taken three first places for the British possession and will exhibit again this year. Samuel Lacroombe of Birtle, Manitoba, was champion wheat raiser of the world in 1917. Wheat-growers of the United States and notably those of Kansas, are determined that the trophies and prizes will remain in this country this year, and the competition for first honors in the wheat sweepstakes promises to be close. The best half-bushel of wheat may win \$1,020 for its owner, and the least, it can win it \$385.

Nearly \$15,000 in cash and trophy prizes will be awarded to exhibitors. These premiums, the largest offered by any fair or exposition, are open to the world, except in a few special classes, which are open to farmers of sections or provinces. Some of the silver trophy cups are huge affairs measuring nearly four feet in height and costing \$500 each. Others range in size, down to the ones offered in the ordinary sweepstakes contests.

PREDICTS COMMITTEE WILL BEFOR WATSON

Robert G. Tucker, Enquirer Political Correspondent, Says Reorganization is Likely

WATSON AND GOODRICH MEET

Robert G. Tucker, Indiana political correspondent for the Cincinnati Enquirer, predicts in an article in the Sunday Enquirer that the Indiana state republican central committee will be reorganized and it will be friendly to Senator James E. Watson, who is an avowed candidate for renomination as United States senator next year, and who is frequently mentioned as a possible candidate.

Governor James P. Goodrich has presidential aspirations, but it was stated in a Washington dispatch to the Indianapolis Star Sunday, that Governor Goodrich and Senator Watson agreed not to quarrel about their ambitions, at a conference in Washington Saturday.

Some Indiana republicans had feared that a contest for the Indiana delegation to the national convention next year might lead to a split, but the statement was made in the Washington dispatch that they will permit no misunderstandings to develop and that eventually there will be a complete understanding between them.

"There will be no misunderstanding between Governor Goodrich and myself about the presidency," was Senator Watson's only comment about their conference. The governor would not add to it.

CONNERSVILLE PEOPLE HURT

Anderson, Ind., Sept. 24.—When an automobile in which they were riding to this city was struck and demolished by an eastbound Union Traction car, one mile west of Fortville, Mrs. Ruth Masters of Connorsville, was injured seriously: her husband, Charles Master, suffered an injury to one leg, and their 3-year-old daughter was shaken up.

Lunch will be served by the Pleasant Home Evening League.

AMUSEMENTS

Good Program at Mystic

"The Midnight Patrol," a feature picture in which a policeman is the hero and successfully fights the owner of a Chinese opium den and a crooked politician, which was shown to a packed house at the Mystic theater last night, will be repeated again tonight and equally as large crowds are expected. There are thrilling moments in the picture, which are in striking contrast with the romance which is carried along with the main plot. An Arbuckle comedy "Fatty the Mermaid" will also be on the program this evening.

Norma Acts Like Cleopatra

From a world-be modern Cleopatra trifling with Fate and forever in pursuit of pleasure to an unselfish and devoted woman wrapped up in her two small children—that is the character transition portrayed by the versatile Norma Talmadge in her screen impersonation of the heroine of "The Moth" her newest Selznick-Picture which is seen tonight at the Princess theatre. Abounding in emotional possibilities and dramatic incidents, the plot is calculated to give the charming young star an opportunity to add one more artistic interpretation to her already amazing list of successes.

The story of the scenario is one that will focus the attention and delight the imagination. Lucy Gillam, "The Moth," is a capricious heiress still in her teens and without parental guidance when she becomes fascinated by the subject of the Egyptian Cleopatra who "lured her way to immortality." A passage in one of her textbooks about the famous queen so excited Lucy's imagination that she immediately started in search of her Anthony.

The many incidents which come up in her struggle to "lure her way" into popularity, causes much amusement, and how she succeeds in luring her Anthony is not known until close to the end of the photoplay. Tomorrow and Friday, Griffith's picture, "True Heart Susie" will be shown, featuring Lillian Gish and several other stars.

"I Love You" Next Week

"I Love You" which comes to the Shubert Murat theatre, Indianapolis, all next week commencing Monday evening, September 29, with matinees Wednesday and Saturday, is a welcome relief from the bedroom-bathroom type of farce which has flooded the stage for the past year. G. M. Anderson's sparkling satirical farce comedy, from the pen of William De Baron, offers a rebuff to those who hold to the opinion that to be funny a modern farce must continually glide over the thin ice which lies between respectability and vulgarity.

To use the words of Charles Collins, the able reviewer on the Chicago Post, "I Love You" does not place its faith in doors, or beds, or the dire aftermath of a night out with the boys, or the ridiculous fears of a fat man afraid of his wife. It does not endeavor to communicate mirth through shrieks and tumult.

The plot of the play concerns the wager of a man who holds that love is purely a matter of circumstances; that any two beings of the opposite sex can be brought to admire each other in an unbelievably short time provided that they are placed in an atmosphere agreeable to the processes of the bow-and-arrow baby. To prove his case the man in question permits the gentleman with whom he wagered to pick out any two healthy candidates, regardless of their social or intellectual differences. Then he sets to work to conduct his experiment with some paltry thousands hanging on the success or failure of the test. To collect his bet he enlists the aid of a wandering violin player, a union electrician who agrees to wear a dress-suit and act as the male portion of the conspiracy for twenty-five hundred dollars a week, a morocco-bound volume of Keats' love lyrics, the cooling breezes of the night and a not unwilling moon. The measure of success which the intrepid experimenter meets with cannot be set down here. It is enough to say that high noon on the laughing thermometer is reached as soon as the curtain is raised, which means the play is a success. The play is continued until the satisfying and smoking finish.

**NORMAL ACREAGE
URGED FOR STATE**

Committee on Food Production and Conservation Send Message to Indiana Farmers.

THIS YEAR'S CROP POOR

Asks That Normal Wheat and Rye Crops be Sowed—Seed Wheat Should be Tested for Smut

Lafayette, Ind. Sept. 24.—The sowing of a normal acreage of wheat and rye throughout the state this fall is urged by the Indiana committee on food production and conservation. Any reduction in acreage of these two important crops will serve only to aggravate the world food shortage while a normal crop will do much to help restore normal conditions, the food men say.

In connection with the efforts of the committee to obtain a normal acreage of these two crops, soil specialists at Purdue university declare that the treating of seed wheat to prevent smut, thorough preparation of the seed bed, cleaning of seed, are three important factors which will help determine the yield of next year's crop.

It is better to cut off the corn, when wheat follows, this crop, thoroughly disking and harrowing the field, than to sow between the rows of corn, as it will prevent waste of the ground and also insure a more even stand and consequent better yield. When wheat follows such crops as potatoes, soy beans, or cow-peas, an ideal seed bed can be prepared by disking and harrowing, and on clean mellow soils, harrowing alone will be sufficient, the men say.

Because of the extremely hot weather early in the summer, which shriveled up much of the grain, the quality of this year's crop is below standard. These shriveled, bad grains may be taken from the seed by cleaning the seed once or twice. Rye, cheat, cockle and weed seeds also will be gotten rid of in this way.

Use of formaldehyde, one pint to forty gallons of water, the wet method, may be used successfully to treat seed wheat to prevent stinking smut. This, however, will not prevent "black heads" or loose smut in wheat, which may be controlled only by the hot water method.

**Famous Contralto
Here Next Week**

Miss Amy Ellerman, the famous contralto who will appear at a concert here next week, is noted among her many friends and admirers as the "self-made girl." She is thoroughly typical of the great Mid-West and all who know her say it is impossible not to fall in love with her at sight. Her remarkable character is as winning as her fine voice. Born and raised on her father's ranch near Yankton, S. D., at three years old she was so completely at home on the back of a horse she would ask to be put on the wildest bronchos and would outgallop her father in rounding up the herds. Before she had reached her teens she could cast a lariat and throw a steer as intrepidly and neatly as the best of the cowboys. She could also be as quick with a pistol and deadly with a rifle as the coolest and oldest hand.

Her unusual independence of character became evident equally early. She always preferred boys' clothing and dressed as a girl only at home in the evening or when visiting. Rather than accept "pin money" without earning it she obtained all the money she needed by following the huskers during harvest and selling her gleanings to her father at so much a bushel. One of her greatest pleasures now, outside of her music, is to return for a vacation to the old ranch life and dressed as a man, put in a spell at broncho-riding or, with her hip boots on, go duck hunting. The Fleming Sisters Trio appear jointly with Miss Amy Ellerman at the Mam Street Christian church, Friday, October 31.—Adv.

**Asserts New Discovery
Brings Blessed Relief To Rose
and Hay Fever Sufferers**

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubts and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome. He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease. And best of all this remedy costs almost nothing. Get a one ounce bottle of Mentholized Arcline at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled. Then gargle as directed and twice daily snuff or spray each nostril thoroughly. That's all there is to it; so simple that a lot of people will say that it can't do the work; but oftentimes simple natural remedies are the best and you will find after using it. If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

Foley's Honey and Tar COMPOUND

LOOSENS THE PHLEGM AND MUCUS, clears the air passages, coats inflamed and irritated membranes with a healing and soothing demulcent, cures hoarseness, stops tickling in the throat and makes refreshing, restful sleep possible.

Banished La Grippe Coughs

Lewis Newman, 506 1/2 Northard St., Charleston, W. Va. "I am glad to tell you that Foley's Honey and Tar is the best remedy for lung trouble I have ever used. I have been down sick ever since January and nothing would do me any good. I was full of cold. I had the grip all winter until I got two 60c bottles of Foley's Honey and Tar. I used 1 1/2 bottles. I am glad to say I can't feel any more cold in my chest."

Foley's Honey and Tar Compound gives prompt relief from coughs, colds, hoarseness, tickling throat, whooping cough, spasmodic croup and bronchial coughs.

F. B. JOHNSON

mont Addition to Rushville \$310.

Elizabeth Tribbey, et al, to Jesse F. Price, 51 acres 12 1/2 sq. rds. in Posey twp., \$9,000.

Flora E. and John F. Walker, to James E. Gatewood, 2 1/2 acres in Jackson twp., \$1,000.

KENSO ADACHI GIVES ADVICE "KEEP COOL"

Declares Outbreaks in United States Against Japan are Merely for Political Effect.

IS A SHREWD POLITICIAN

Tokio, Sept. 24—"Keep Cool".

That was the advice given to his countrymen by Kense Adachi, the "Colonel House" of Japan and credited as one of Japan's shrewdest politicians, when he returned from a tour of Europe and the United States.

Outbreaks against Japan are occurring regularly in United States, he said, but merely for political effect with the presidential election in mind, he declared. The republicans in the senate do not represent the majority of America and the senate foreign relations committee's Shantung amendment will not be accepted by the senate, Adachi declared.

WILL DISCUSS "FLU" AT YEARLY MEETING

Indiana State Medical Society Will Take up the Study of the Disease From Various Angles

THREE DAYS NEXT WEEK

A number of papers dealing with the various phases of influenza will be read at the annual session of the Indiana State Medical Association which will be held at Indianapolis next Wednesday, Thursday and Friday. The profession of the state is making a special study of the disease in view of the possible recurrence of last year's epidemic. Among papers dealing with the subject will be the following: "Influenza in Children," by Dr. Nettie B. Powell of Marion; "Clinical Manifestations and sequelae in Influenza," by Dr. Charles P. Emerson of Indianapolis, and "Correlation of Bacteriological and Pathological Findings in Influenza in One Hundred Necropsies at Camp Taylor" by Dr. E. N. Kune of Indianapolis.

The session will open with a smoker on Wednesday evening at which luncheon will be served and various cabaret features arranged for the visiting members. The scientific program will begin Thursday morning and continue through Friday. On Thursday night a dinner will be held in the Riley room of the Claypool Hotel. Business meetings will be held Wednesday evening and Friday morning. Among the other features of the session will be a reception to

be held at the new Indiana University School of Medicine Building on Thursday afternoon. A special entertainment program has been arranged for the women who will accompany the doctors, including a visit to various clinics, a luncheon and musicale.

DID YOU EVER SEE ASBESTOS SWEAT?

Is There a Doubt in Your Mind?

WET WITH SWEAT

Every time a fire is built in a range the body gets wet with sweat. Sweat Rusts.

Come then and see for yourself. See the Sweat roll up in beads on the iron body. See the Sweat that causes Sweat-Rust, a disease that eats up and rusts out range bodies from the inside. Then, see how good, old, everlasting copper is placed between the asbestos and range body. See the domes on the sheet of copper. See the air spaces formed by the domes. See the thermos bottle principle actually applied to ranges.

A WEEK OF DAILY DEMONSTRATION BEGINNING SEPT. 29

The Copper-Clad Range is as Plain as an Automobile Body

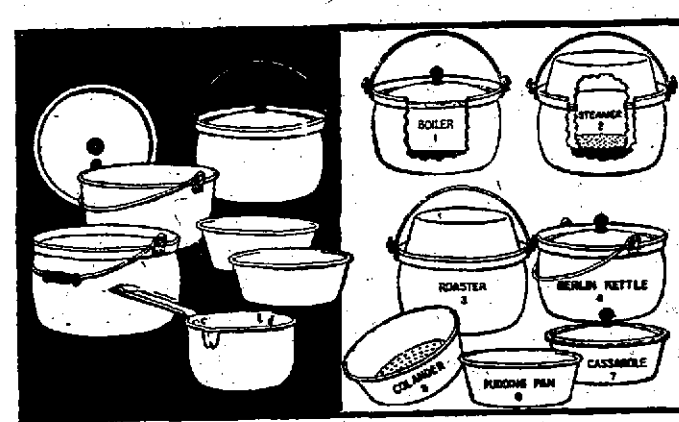

The first automobiles made were fussy, full of ornaments, hinges, catches and latches, but the men who cleaned the automobiles kicked on these things that made so much work and trouble. Then the hinges and latches and catches were put on the inside of the body, clear out of sight—clear out of the way. If men cleaned ranges, the frills and ornaments and fuss and feathers all over the average range would have disappeared 40 years ago.

Clean, smooth, plain, elegant, lined with copper to prevent Sweat-Rust—with four walls and an air space to confine the heat like a thermos bottle—the Copper-Clad is King of the range world. No range compares in any way at any point.

Copper-Clad Means

Pure Sheet Copper is placed between the sweaty asbestos and the range body. To place it elsewhere would be like climbing on top of a roof to get out of the wet.

THIS Set of Elegant Aluminum Ware FREE

"Free" means that this ware does not cost Copper-Clad buyers a single penny. It is a reward for buying while the Crank is here and is offered by him to justify you in attending this sale.

This ware is very substantial and just the kind that you would select if buying for your own use. The 7-in-1 convertible copper takes the place of seven different vessels, as shown by figures 1, 2, 3, 4, 5, 6 and 7. You can use this utensil in some form every day.

Free to every Copper-Clad buyer during this sale. Come—See the Asbestos Sweat.

HOT ALFALFA BISCUITS

Alfalfa Biscuits baked in a Copper-Clad oven is about the Goodest Biscuits you ever tasted. Come and taste—stay and eat. Alfalfa Biscuits with butter and hot drip coffee will be served every day. COME—bring your friends and make yourself at home.

For One Week Beginning Sept. 29th.

MAN INJURED BY CAR CARRIES GOV'T POLICY

Delbert Pratt, Who Received Mashed
Legs Last Friday by I. & C.
Car Has \$10,000 Insurance

THINK HE WILL RECOVER

Delbert Pratt, who was crushed under an I. & C. traction car at Adams last Friday evening, resulting in the loss of both feet, carries a \$10,000 insurance policy with the government, it was announced today. Under the terms of this government policy, it is estimated that Mr. Pratt will receive a monthly compensation of about \$78 for a period of 20 years, the life of the policy.

Mr. and Mrs. George Pratt, parents of the young man, went to Indianapolis yesterday and spent the day with him. Word received from the Methodist hospital, where he is being cared for, states that he is getting along as nicely as could be expected, and his attending physicians are confident that he will recover.

County News

Orange

Mrs. Ida L. McKee spent Saturday afternoon in Connersville on business.

Mrs. J. T. Newkirk is ill at her home here.

TO FORM ROUND TABLE

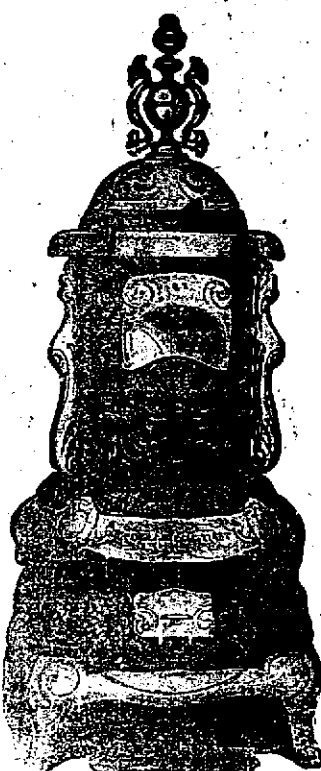

Indianapolis, Ind., Sept. 24.—More than twenty-five leading clubs of Indianapolis were to send representatives to a meeting here today to perfect a permanent organization and to close the charter of a proposed council of clubs to be known as the Round Table.

The Hot Blast Air Tight FLORENCE

Beware of imitations or people who claim to have a stove like or just as good as the FLORENCE. Do not be deceived by such false claims and find it out when too late. Examine the Florence carefully before you buy.

The FLORENCE will burn WOOD as well as coal and will burn coal better than any other stove made.

The Only Absolute Smoke Consuming Stove on Earth
No Smoke! No Soot! No Dirt! No Clinkers!
Everything is Consumed

The only jointless leg bottom and base with full radiation and large ash pan that is on the market or has ever been made in the history of the stove industry.

The jointless leg bottom and base makes the stove air-tight below the grate, which is the only true fire keeping principle.

It will be as good a fire keeper twenty years hence as it is today.

The HOT BLAST AIR-TIGHT FLORENCE will heat twice the space that can be heated by any other stove on earth at one-half the cost. The only perfect floor heater that is or has ever been made.

All features are patented and no stove manufacturer, dealer or user can copy or use same until the expiration of the patent without incurring liability for an action for damages.

THE HOT BLAST AIR-TIGHT FLORENCE burns soft coal, wood, slack and all the smoke and gasses. No filling up of the stove pipe or flue with soot. It will produce one-half less ashes than any other stove on earth with any kind of fuel and leave no clinkers or half consumed fuel.

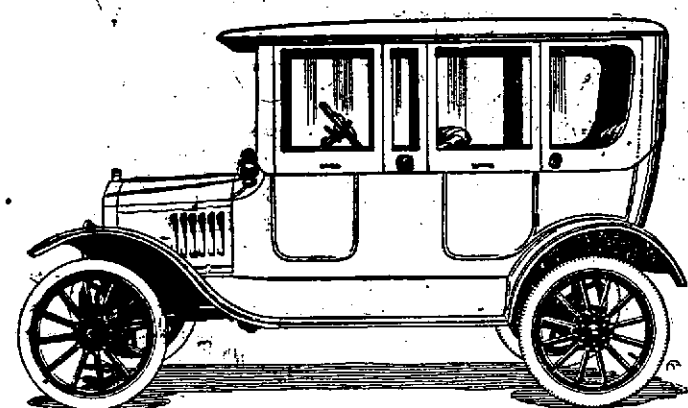

Prices from \$29.00 to \$58.00. Why pay \$15.00 to \$20.00 more for other makes of stoves when they will not equal the FLORENCE

Detroit Weatherproof All Season Tops

It's an attachable top rather than a detachable top. We say this because it is so easy to put on. You are protected from the cold winter weather or in summer it can be all opened in a very few minutes to permit the freest vision and ventilation. It has flexible sliding doors that can be opened any desired height. It is simple in construction, no rattling and exceedingly well finished inside and out.

LOWEST PRICED, SATISFACTORY TOP ON THE MARKET.

HEBRAIC HOLIDAY OBSERVED

Rosh Hashana is One of Most Beautiful Celebrated by Jews

Rosh Hashana, one of the most beautiful and solemn of Hebraic holidays, will be celebrated tonight and tomorrow by all Jews. The orthodox congregations observe the event for two days. Shuster and Epstein's store will be closed tomorrow in observance of the holiday.

According to the Jewish calendar it is New Year of the year 5680 corresponding to Wednesday, September 24, 1919. It ushers in the ten days of penitence. Rosh Hashana is a day of sublime festivals. Prayer constitutes the salient feature of the service, whether it be in a reformed or orthodox congregation.

SENATOR MOVES TO SEND TROOPS

Leading Administration Spokesman From Mississippi Would Give President Power

REPLACE BRITISH FORCES

Troops Should be Sent to Armenia Until Affairs are Composed Under Peace Treaty

Washington, Sept. 24.—Senator John Sharp Williams of Mississippi, who is a leading administration spokesman in the senate, has set the ball rolling toward the sending of American troops into the Near East. It has been well understood for some time that the administration favors this proposition.

Senator Williams has introduced a resolution to authorize the President to use whatever American military forces may be necessary to maintain order in Armenia until Armenian affairs are composed under the peace treaty.

Under this, there would be no limit to the number of troops the President could send, provided, of course, they are available. They would go in as British divisions are withdrawn.

The proposition has caused no small measure of attention in Congress. It is commented on as being in harmony with the desire of the president that the United States take a mandate in the Near East. Likewise, it is in harmony with the mission of General Harbord and other officers to the Near East.

How long the troops would have to stay and what complications they would be involved in are questions unanswered. It is generally assumed here, however, that, in the first place it would require something more than a small contingent of troops to hold things down in the Armenian region, which, though it looks small on the map, is, in fact, extensive. What complications American troops would get into with the Turks and Kurds is something conjectural, though it is clear that if difficulty did arise and there was fighting the American forces might be held in Asia indefinitely.

Under the circumstances, the foreign relations committee, to which the resolution has been referred, will consider very carefully what the resolution might lead this country into before it sanctions it.

It is true that the administration insists, congress would be consulted. What a majority of the senate

insists, however, is that there must be no guesswork or opinion about it and that it must be down in black and white that no mandate shall be taken unless congress explicitly permits it.

It is estimated that about one-thirteenth of the entire Jewish race is resident in New York city.

Big Lot of Hay Fever Jokes

But Kentucky Man Says—"People Who Belong to Hay Fever Colony are Kidding Themselves."

Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy Was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcline and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and snuff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcline say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keep mild by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition. All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

Probable Opponents of the Reds Regarded as Team of Veterans

No bunch of "Spring Chickens" that Pat Moran will stack his Aggregation Against in World Series if White Sox Win American League Flag.

It's no team of "spring chickens" that Pat Moran is going to stack his Cincinnati Reds against in the world's series. Both in years and experience "Kid" Gleason has in the White Sox what can be considered a team of veterans. The main cogs of the machine that weathered a heavy storm and copped the American League rag for him are real veterans at the game, while the majority of them have been on the "ups and downs", back and forth, from the minors to the majors.

"Happy" Felsch, one of the bulwarks of the outfield is the youngest member of the clan. He is 25. "Kid" Gleason, gray topped with 34 years, is the senior member of the firm. Betwixt and between, as they say, are Eddie Cicotte 35, John Collins 33, Joe Jackson 32, Eddie Collins 32, Faber 31, Chick Gandil 30, Bill James 29, Claude Williams 28, Buck Weaver, 28, McMullin 28, Eddie Murphy 28, Ray Schalk 27, Leibold 27, and Risberg 26.

Brief history of the career of the American League champs follows:

Edward F. Collins (second base) born in Millertown, N. Y., 32 years ago. Played three years with Columbia university before Connie Mack signed him in 1906. The White Sox bought him in 1915 for a reported price of \$50,000. He has a batting average of .331 for his major league career, throws right handed and bats left-handed.

George D. (Buck) Weaver (third

base) was born in Stowe, Pa., and is 28. He was signed by Cleveland in 1909 after a year with St. Mary's College and the Pottstown semi-pros. He was released to Saginaw in the Southern Michigan league and in 1910 played with Northampton in the Connecticut League and York in the Tri-State league. He went to the White Sox in 1911 and was released with strings to San Francisco. In 1912 he was recalled by the White Sox and has been a regular since. He bats around .260 right handed and throws right handed.

Joseph Jackson (outfielder) was born in Brandon Mills, S. C., 32 years ago. He started in 1907 with the Greenville semi-pros. Connie Mack signed him in 1908 and he was sent to Savannah in South Atlantic League in 1909. Was recalled to the Athletics in 1910 and sold to Cleveland. Later he was farmed to New Orleans in the Southern League and was brought back to Cleveland in 1911. The White Sox got him in 1915 in exchange for Roth, Klepfer and \$31,500. He worked in the shipyards during the war. He bats around .365.

Arnold C. (Chick) Gandil (first base) was born in St. Paul and is 30. He started in 1906 with Amarillo, Tex., and Humbolt, Ariz. In 1908 he was signed by Shreveport in the Texas league and was drafted by the St. Louis Browns in 1909. He was released to Montreal by the White Sox in 1912 and then traded to Washington for Cunningham, Becker and Akers and \$3,500. In 1916 he was sold to Cleveland and ended with the White Sox in 1917 for \$3,500. He bats around .275.

Harry Leibold (outfielder) was born in Bentler, Ind., and is 27. He start-

ed his professional career in 1911 with Milwaukee in the American Association; was drafted by Cleveland in 1912 and released in 1915 to the White Sox for waiver price. He bats around .245.

Oscar (Happy) Felsch (outfielder) was born in Milwaukee and is only 25. He started with the city league of his home town 1912 and went to Fond du Lac the following year. He was sold to the White Sox in 1914 for \$7,000. He is a .278 batter.

Raymond W. (Ray) Schalk (catcher) born in Harvel, Ill., is 27 years of age. In 1911 he went from Taylorville to Milwaukee in the American Association for \$500. The White Sox bought him in 1912 for four players valued at \$17,000. He is a .249 sticker.

John F. Collins (outfielder) was born in Charlestown, Mass., and is 33 years of age. He started out in 1907 with Haverhill and went to Springfield in the Connecticut League in 1909. The following year he was sold to the White Sox. His batting average runs about .275.

Edward J. Murphy (utility) was born in Hancock, N. Y., 28 years ago. He started in 1911 with Villanova and went the same year to Scranton in the New York State League. He was sold to the Athletics in 1912, and was released later to Baltimore in the eastern league. He was recalled to the Athletics in 1913. He was sold to Chicago in 1915 for \$13,000. He generally bats around .290 but has been clouting this year as a pinch hitter around .500.

Frederick McMullin (infielder) was born in Seamon, Kas., and is 28 years old. He started with Seattle in 1912 and went to Tacoma in the Northwest League. He was sold to Detroit for \$15,000 in 1914 and sold to the White Sox in 1916 for \$3,500. He bats around .275.

Charles A. (Swede) Risberg, (shortstop) was born in San Francisco and is 26 years old. He came to the White Sox in 1917 from the Vernon Pacific Coast League where he began his career in 1912.

Edward V. Cicotte (pitcher) was born in Detroit and is 35. His career started in 1904 with Calumet in Northern Copper league. He was sold to the Tigers in 1905 and released to Augusta in the South Atlantic League. Detroit recalled him in 1906 and he was later released to Indianapolis. From there he went to Des Moines in the Western League. Again Detroit recalled him and sold him to Lincoln in the Western League in 1907. Boston claimed him in 1908 and he pitched for the Red Sox until 1912 when Chicago got him on waivers. He won fame as the "shine ball" artist and is one of the headiest, cleverest pitchers now in the game.

Claude P. Williams (pitcher) was born in Springfield, Mo., 28 years ago. He started in 1911 with Springfield and went to Nashville in 1912. Brooklyn signed him in 1913 and he was farmed back to Nashville. He was released to Detroit in 1913 and was sent to Sacramento in 1914. He pitched with Salt Lake City in 1915 and went to the White Sox in 1916.

Urban C. Faber (pitcher) was born in Casade, Ia. He is 31 years old. He first pitched with Dubuque in the "Three I" league where he came from St. Joseph's College in 1909. Pittsburg drafted him in 1910; loaned him to Dubuque and later recalled him. He was released to Minneapolis in 1911 and from there went to Pueblo in the Western League. He was transferred to Des Moines and then sold to Chicago in 1914 for \$3,500. He served in the navy during the war.

William Henry James (pitcher) is 26 years of age. He started pitching in 1909 and has been with ten clubs in as many years including Cleveland, St. Louis, Detroit, Boston, Chicago and the minors. He served in the army.

David C. Danford (pitcher) is 29 years old. He was born in Granger, Texas. He started in 1911 with the Philadelphia Athletics and was released to Baltimore in 1912 and was sold to Louisville in 1914 for a reported price of \$2,500. The White Sox drafted him in 1915 and he has been there since.

Grover Lowdermilk and Roy Wilkinson (pitchers) are both products of the American Association, who have spent several seasons in trips to and from the majors. Lowdermilk has been with the White Sox all

Perfection's Price In Tire Building

A tire-maker's first problem is to decide how much he can give for the money. This, and every other question in tire building, depends upon policies.

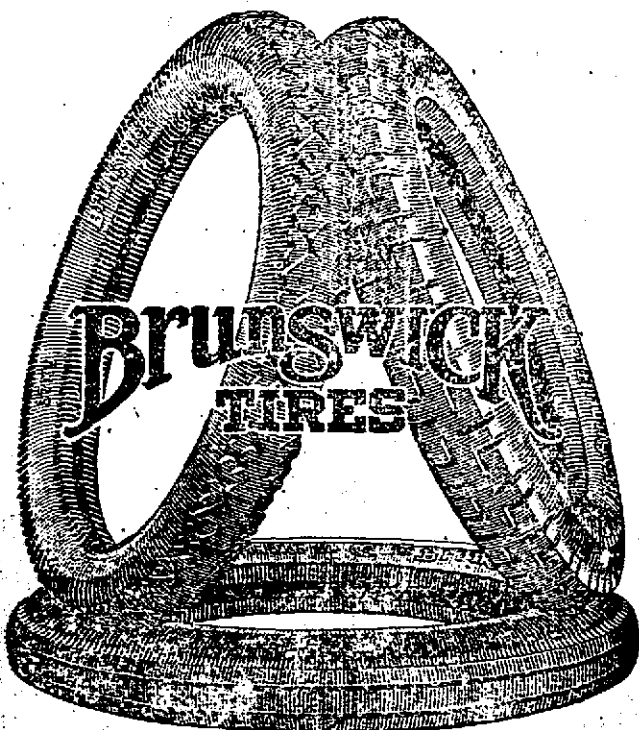

A super-tire, such as The Brunswick, can be made only by a concern which knows well and appreciates that there is nothing exclusive in the tire industry except high standards.

Since 1845 the House of Brunswick has held first place in every line it entered. Brunswick Tires, as more and more motorists come to know them, will certainly be awarded that coveted place held only by the super-tire.

Motorists who buy one Brunswick usually adopt it for complete equipment. Yet this is not strange, since the first one so completely proves its superiority.

If the name of Brunswick certifies to you, as to most men, an extraordinary tire, at no higher price, would it not be good business to test one or two Brunswick Tires?

season after a big year last season with Joe Tinker's Columbus club. Wilkinson, a tall right hander, was Tinker's best pitcher this season and was sold to Gleason three weeks ago.

Dick Kerr (pitcher) the young left hander is a little fellow, standing five feet seven inches and weighs 146 pounds. His home is in Beloit, Wis. He broke into baseball in 1916 in the Texas League and joined Milwaukee of the American Association in 1918. He was signed up this year by the Sox and has been one of the regulars along with William and Cicotte. He is 24 years of age.
